Our Grand Exposition

and Sale of Correct Autumn Styles

New Millinery, New Coats and Suits, the New Dress Fabrics and Dress Accessories

A first authentic showing a herald of the Fall season that says ready now with broad-gauged, generous stocks that have been gathered with care and discrimination from the fashion centers of our own and foreign countries.

IN ALL LOS ANGELES

NO HATS LIKE THESE

From Paris, New York, from the skilled fingers of our own milliners, come hats of beauty and grace—hats that will meet the individual taste of every woman.

During this Autumn Exhibit we are putting particular stress on the dress hats at \$15, \$20 and \$25.

We emphasize these because they are equal to hats shown most places at \$25, \$40 and \$50. All Broadway millinery is sold on a strictly mercantile basis. No more can we ask for it, but what is the smallest margin of profit the hats can be sold for?

This is not merely a theory with us, but a business principle. See these beautiful hats trimmed with ostrich plumes, alpacas and novelty trimmings. Millinery business of Los Angeles centers here.

See the demi-dress and street hats at \$15.00 and \$20.00 and the superb hats at \$25.00. Paris models are here in all their beauty, and yet we are most enthusiastic about the hats of our own work room. They have all the grace of foreign hats with this addition—they are most practical.

These Exhibition Days are Saving Days for You

In sympathy with this Autumn Exhibit every department comes forward Thursday with values of the unusual sort. To make this an occasion of profitable interest to you, the time when you can come and view the fall styles and at the same time save money. There'll be no music, no flowers, just a broad welcome for everybody and a stirring list of dependable merchandise offered at prices that will be the most interesting part of the programme.

\$6.00 Net Waist Souvenir Price
\$4.48

New ecru net waists, elaborately trimmed with cluny lace insertion and bands, Persian silk band on collar and cuff, silk underslip; \$6 regular price, Thursday's price \$4.48. Second floor.

\$15.00 AND \$17.50 SUITS
A Souvenir Bargain \$12.50

In place of the customary music and flowers we are going to start the season right off with suit selling extraordinary. We've taken several lines of \$15.00 and \$17.50 suits and marked them \$12.50 today. Made of all wool cheviot; Prince Chap style in checks and stripes or fancy mixtures; suits that have an individuality of their own; skirts full pleated with two bias folds at the bottom. Compare them with any \$15.00 and \$17.50 suits in the city. A souvenir price, \$12.50.

\$25.00 AND \$27.50 SUITS
A Souvenir Bargain \$22.50

Not merely an estimated worth on these suits, but suits that are actually marked \$25.00 and \$27.50. Price for the Autumn Exhibit, at \$22.50. They are fancy novelties, worsted suits, also broadcloth and serge models, in stripes and solid colors; coats 3/4 length; skirts full pleated with bias bands across the bottom. Some trimmed with velvet collar and fancy buttons; here in navy, brown, black and gray, also dark red. Remember this \$22.50 is a souvenir price.

Hearing Is Begun by Commissioner Lane.

Road Is Suspected of Granting Rebates.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Oct. 2.—Interstate Commerce Commissioner Franklin K. Lane today began a hearing of complaints to the effect that the Southern Pacific Railroad Company has granted rebates on interstate shipments to favored shippers.

The government was represented by attorneys J. T. Marble and E. T. Smith of Washington.

Peter F. Dunn of the law department of the railroad represented that corporation and vigorously objected to the introduction of the company's books in evidence.

The objection was overruled, and the books will be scrutinized by the government expert.

C. V. Segar, auditor of the Pacific system of the Southern Pacific, was the first witness called. He had been in charge of the sub-department freight claim office since May 1, 1906, he said.

At that office they encountered two sets of claims, one for loss and damage and another for overcharge. There was also a series of claims which the Southern Pacific handled since January 1, 1907, which were designated as "A" claims.

The matter of "A" claims was first brought to my attention in October," said the witness. "They were a series of claims not approved by the freight agent. They were vouchers of character that could be audited by the auditor of disbursements."

Witness should not think it odd that the auditor of disbursements should be allowed by the general agent with railroad companies, he said.

FAME'S TRIBUTE. HONOR MEMORY OF GEN. GRANT.

MEMORIAL TABLET UNVEILED ON SPOT OF HIS BIRTH.

Soldier Son of Soldier-President and Many Distinguished Army and State Officers, as Well as Native Sons of Clermont County, Dedicate Marble to Nation's Hero.

(BY THE ASSOCIATED PRESS—A.M.)

CINCINNATI, Oct. 2.—In the presence of a distinguished gathering that included many old army soldiers, a memorial tablet at the birthplace of President U. S. Grant, at Point Pleasant, Clermont county, was unveiled today. It was the first of three days' celebration of the centennial and homecoming week of Clermont county, and thousands of native sons joined in paying honor to the country's most illustrious warrior.

A bronze cannon and memorial tablet had been placed on what is believed to be the exact spot where was located the house in which Grant was born, and about this were gathered Gov. Andrew L. Harris, Lieut.-Gen. Harry C. Corbin, U. S. A., retired; Gen. Fred B. Grant; delegation of the Ohio Commandery of the Loyal Legion, and relatives and other guests.

A detachment of regular soldiers from Fort Thomas acted as a guard of honor, and assisted in the services. A large party of visitors went up from the city by steamer to participate.

Gen. Corbin, a native of Clermont county, as well as a personal acquaintance of the dead soldier-President, presided, and Belleville Simpson, a cousin of President Grant, acted as secretary.

The invocation and welcoming address was made by Elijah Archer Connor, and Gov. Harris also made an address.

"Ohio has furnished her quota of writers, inventors, orators, jurists, statesmen and warriors," said Gov. Harris.

"Today we honor him who stood first among the military chieftains of his time. To the humblest youth of our land his life is an inspiration."

Judge James B. Swiney of Cincinnati, another native of Clermont county, delivered an address. Gen. Corbin then presented the memorial which, he said, marked "the birthplace of the greatest soldier and one of the most illustrious citizens of the republic."

The response in acceptance of the simple memorial was spoken by the soldier-son of the soldier-President, Gen. Fred B. Grant.

On a metal tablet which is affixed to the cannon, appears this inscription: "Gen. Ulysses Simpson Grant—General of the United States Army, and twice elected President of the United States.

STATEHOOD. NEW MEXICO ON ANXIOUS SEAT.

RESULT OF CURRY'S CONFERENCE KEENLY AWAITED.

Territorial Officials Confident "Rough Rider" Governor Will Succeed in Inducing President to Favor Single Statehood Plan—Obstacles to Be Overcome.

(BY DIRECT WIRE TO THE TIMES.)

SANTA FE (N. M.), Oct. 2.—[Exclusive Dispatch.] The people of New Mexico are awaiting with great interest the result of the conference in St. Louis today between President Roosevelt and Gov. George Curry.

At this conference, Gov. Curry will ascertain the President's views on single Statehood for New Mexico in 1908.

In official circles here, it is confidently predicted that the mission of the Territorial Executive will be successful, and that Gov. Curry will induce the Chief Executive to favor single Statehood plan.

It is known that perhaps no one in the West today stands as close to the President as does Curry, and for this reason it is believed that success is assured. Before leaving for St. Louis the Governor expressed himself as being sure of success.

However, even if the President should favor the plan, it is known here that there yet remain many other obstacles to overcome. Chief among these, perhaps, is Speaker Joseph Cannon of the House of Representatives, who would be a powerful factor in shaping the policy of that body.

A delegation composed of prominent members of the Republican and Democratic parties in the Territory, headed by Gov. Curry, Delegate Andrews and National Committeeman Solomon Luna, will journey to Washington when Congress convenes and remain in the national capital, working for the cause of single Statehood until either success is attained or defeat seems inevitable.

It now looks as if there were plenty of friends in the Senate for the plan.

MOUNTAIN YIELDS A MOUSE. Threatened "Big Strike" of Pressmen in Chicago Divulges Down to Three Offices, When Called.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Oct. 2.—The threatened strike of printing pressmen in job printing offices, throughout the country, which was scheduled to go into effect yesterday in offices that declined to yield to the demands of the International Pressmen's and Assistants' Union, affected only three offices in Chicago, according to advices received today at the United Typothetae headquarters in this city.

The union demanded an eight-hour day at nine hours' pay, with an added advance of \$1 a week.

An official of the Typothetae said that the whole trouble was due to an attempt on the part of new officials of the pressmen's union, headed by President George L. Berry of Cincinnati, to repudiate a contract made by former President Martin T. Higgins of Charlestown, Mass., last February, effective on May 11, continuing for five years, and renewing an agreement which had been in force for five years previous to that date. It was said that legal steps would be taken to compel the union to adhere to its agreement.

Occidental and U.S.C. Sign
Tentative Agreement.

St. Vincent's and Whittier
Promised Privileges.

Partial understanding was arrived at by representatives of Occidental, U.S.C., Pomona, Whittier and St. Vincent's at a meeting called to form a conference agreement in athletics, held yesterday afternoon at Occidental. Another session will be held next Wednesday morning at 8:30 o'clock at the University Club, No. 124 South Hill street.

The nearest approach to any definite agreement was a dual agreement, signed after the meeting, between Occidental and U.S.C., to recommend to respective student bodies and faculties that beginning September, 1938, all contestants in athletics between the two institutions must be of college rank and be in residence one year under regular freshmen.

This agreement, however, is not binding, as it may be rescinded by the faculty or student body of either school, and was made in order to show that both Occidental and U.S.C. were willing to make concessions. The agreement reads:

"Whereas W. R. Crane of Occidental and Manager Carl Hunt of U.S.C. hereby agree to recommend a dual agreement that is to bind respective institutions as regards eligibility of all athletic contestants beginning September, 1938, all contestants must be of college rank and must be in residence at least one year and pass in twenty-four hours of college work, unless entering as a freshman for the first time in an American school, with at least twelve units of academic credits.

"All other points shall be governed by the agreement (called a conference agreement) made between Pomona and Occidental, June 1936.

"CARL HUNT, U.S.C.
"W. R. CRANE, Occidental."

(Hunt signed with the word "recommended" omitted, but Crane included it and it is included, and it so stands.)

SPRING CLAUSES REPUDIATED.
U.S.C., Whittier, and St. Vincent's mutually refused to enter the conference agreement which Occidental and Pomona signed last spring, but the school is to be prepared to give final answer at the meeting next Wednesday.

The points in dispute are regarding academic and Pomona do not want to coaches to be representatives, demand a one-year residence rule, and winning September, 1938, want preliminary students barred from intercollegiate contests.

It was suggested and partially agreed that St. Vincent's and Whittier be admitted to play "preps" until they have met the rules in their college departments; but U.S.C., Pomona and Occidental want their own "preps" initiated in 1938. The three old conference schools were to meet in a considerable leeway, but fear to the Hempel too much rope at Occidental.

DUAL AGREEMENT.
Holmes and Thompson of Whittier formed a dual agreement, called "purity agreement," whereby each school is to allow the faculty of the other to decide the eligibility of its athletes. When Holmes and Thompson met in the presence of Hempel last night, the latter wanted to come to similar agreement immediately, but Hempel refused to do so.

After the meeting, Hempel said that he was not going to sign the agreement until he had met with the other schools. He said that he was not going to sign the agreement until he had met with the other schools. He said that he was not going to sign the agreement until he had met with the other schools.

The following representatives were present at the meeting: U.S.C., Coach Holmes, Carl Hunt; Occidental, Prof. J. C. Thompson; Pomona, Prof. J. C. Thompson; St. Vincent's, Coach Holmes; Whittier, Coach Holmes; Occidental, Coach Holmes.

WHITTIER'S FILE.
The following application was presented by Whittier College: Whittier College hereby makes application for membership in the Intercollegiate Conference of Southern California.

Whittier believes this application is entitled to favorable action on the part of the members of the conference for the following reasons: That she is a regularly chartered college, capable of conferring degrees of equal value with the conference members.

That her graduates are admitted to the best universities of the country on equal standing with the graduates of other schools.

That she has already won recognition by her showing in athletics.

That the standards of scholarship required by her are as high as that required by other conference members.

That her athletic teams have conducted themselves in a manner that is perfectly commendable.

LONDON, Oct. 2.—[Exclusive Dispatch.] German medical circles are discussing the investigations made by Dr. Ludwig Reinhardt, the noted Austrian hygienist, of the theory that curdled milk, prepared under certain conditions, is not only a sovereign cure for digestive maladies, but a veritable elixir of life.

Prof. Hermann Strauss of the University of Berlin, and Prof. Metchnikoff, the noted French bacteriologist, who attended the recent hygienic congress here, are among those who deem the subject of importance. Prof. Metchnikoff's investigations along this same line are well known.

Dr. Reinhardt declares that the use of milk which, after being slowly heated to a certain temperature, is allowed to become thick and sour, will prolong life materially, if taken regularly.

TAFT'S SPEECH QUIETS JINGOS.

COUNT KATSURA DISMISSES ITS BENEFICIAL EFFECT.

Declares Visit of American Secretary of War Refutes All Rumors of Rupture of Friendly Feeling Existing Between the United States and Japan.

(BY THE ASSOCIATED PRESS.—P.M.)
TOKIO, Oct. 2.—At the express wish of the Emperor, Mr. O'Brien, the new American Ambassador, postponed the arrangements for the presentation of his credentials until after the departure of Mr. Taft. The Emperor said he did not desire that Mr. O'Brien's audience should be concurrent with that of Secretary Taft, as it might appear to belittle his reception as Ambassador.

Count Katsura, ex-premier and a member of the Military Council of the Empire, in an interview today, said: "I am delighted that Mr. Taft's brief visit has been made the occasion for an indisputable demonstration of the friendly relations between Japan and the United States. Attempts have been made to misrepresent the existing relations of both countries, but they must be attributed to the work of interested parties and hardly deserving of serious consideration."

"The whole situation was talked over two years ago, on the occasion of his last visit here. A perfect understanding was then arrived at between the authorities of both governments, and no change has since been made there. I firmly believe that nothing can shake the foundation on which the historical relations of both nations are built."

"There is nothing more absurd than the cry of war between the United States and Japan, and Mr. Taft has now, by his great speech, so widely reported, put an indelible seal on the cordial relations and perfect understanding existing between both countries. Should a suspicion have existed of the sincerity of the Japanese, the United States, his eloquent utterances ought to have completely dispelled it and inspired assurance."

Secretary Taft, on the evening of his departure today for Kobe, where he will embark on the steamer Minnato for Manila, said:

"The magnificent welcome accorded me by the government and people of Japan is the most magnificent sign of friendship that I have ever received. I am confident that both countries will continue to be as friendly as they have been, and not afford occasion for misrepresentation by anybody."

TAFT MEN SUSPICIOUS.

They Think President Roosevelt Was Strangely Silent When He Was in Washington.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Oct. 2.—[Exclusive Dispatch.] Fresh reports of a clash between the Taft and Roosevelt Presidential ambitions are afloat.

They emanate this time from Canton, where it is said Arthur L. Voorhis, Secretary Taft's manager, has a long conversation with the President and made it clear to him that the Taft men did not like the political behavior of Secretary Cortelyou and his lieutenants. Especially was it made plain that the friendship shown to Cortelyou by the Eighth Virginia District was distasteful to the Taft men, as was also First Assistant Postmaster-General Hitchcock's activity in the South, and the constant rumors that Cortelyou is laying plans to bag the New York delegation.

Voorhis is said to have been in line with the President for a better understanding among the Roosevelt men.

Internal Revenue Commissioner Caperton of South Carolina, who holds high office in Cortelyou's department, and is known to be working for other interests than that of the President, is one of the men to whom Voorhis is alleged to have raised objections.

Along with the Canton reports, which are in line with earlier developments, it is learned that the Taft men are feeling uneasy over President Roosevelt's attitude toward their candidate. They point out that the President was strangely silent on Taft when he was in Washington last week, and he seems to have been little to advance the Taft interests.

When Senator Burkett of Nebraska called on the President, soon after the latter's return from his trip to the West, he was asked by the President if he had any suggestions to make. The President expressed pleasure at the Taft endorsement by the convention. But there is no evidence that the President did any work calculated to help the Taft movement while he was in Washington.

Another thing which is making the Taft people uneasy is Secretary Root's attitude. From such high sources as to command attention, word has come

NATIONAL GUARD OF CALIFORNIA.

Has Conference With President in Ohio.

Report of Adjutant-General of Army Made Public.

Embodies Recommendations of Maj. Wilhelm for Inspector of Small-Arm Practice and for Preliminary Instruction of Recruits by Capable Non-commissioned Officers.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Oct. 2.—[Exclusive Dispatch.] According to the annual report of the adjutant-general of the army made public today, there are 241 officers and 2433 enlisted men in the National Guard of California. Under the Dick law, the state has been allowed \$23,921 for the purchase of arms, equipments and camp purposes, while \$973 has been allotted for the promotion of rifle practice among the guardsmen.

Embodied in the report are the recommendations of Maj. Thomas Wilhelm, U.S.A., who attended the maneuvers of the California guard during the summer. Maj. Wilhelm has this to say:

"The close relation between the organized military of this state and the military forces of the United States is highly appreciated and encouraged. The state should have a capable, capable and capable non-commissioned officer to look after small-arm practice and range facilities and supervise the work in conformity with the requirements of the regulars."

"Gallary practice should be insisted on with all required preliminary instruction. This is not so much understood. All officers and enlisted men should be required to report at ranges and shoot through the regular qualification course."

"For the betterment of the organization, it should be required that recruits be placed in charge of thoroughly capable and qualified non-commissioned officers for primary instructions in company exercises, and company commanders should be required to see that the recruits receive more instruction before being placed in the ranks of the company."

The report further declares that the present system of election of company officers should be, in a measure, changed. Under the existing system, the enlisted men are afforded an opportunity for indicating approval or disapproval of their officers' actions and methods, petty jealousies are often aroused and cliques and factions created, which seriously hamper an officer and work a material detriment to an organization. Moreover, in order to retain their positions, officers must keep the good will of the enlisted men, and good will and discipline do not always go hand-in-hand in a National Guard organization. To overcome this difficulty, it is suggested that the second lieutenants only be elected by the members of companies, to be commissioned on military merit, and to hold office during good behavior, with an age limit; promotion to these by seniority after passing the required examination.

Provision should be made by the state authorities for the payment of a small compensation for attendance at ordinary drill and target practice for not to exceed fifty exercises a year, payments to be made annually. Out of this, fines to be deducted for non-attendance and for loss or damage resulting from neglect or injury to property in charge of enlisted men. This would be quite an item to most men, and it would be an important factor in increasing the efficiency of the state troops.

It is also recommended that more time and attention be devoted to the extended order, guard duty, fire discipline, camp service, the nomenclature and care of arms, and the meaning of common military terms.

A limited number of first-aid packages should be issued to each organization and instruction given in their use. The state should provide military organizations with suitable armories for the care and safekeeping of the United States and state property issued to them as well for the housing, comfort, drill and instruction of their members.

The buildings, or in most cases the portions of buildings, now used as armories, have in but few instances been constructed for that purpose, and the drill and other rooms are often small and inadequate, and hampering the efficiency and comfort of the organization occupying them. Every organization of the National Guard should have a properly constructed armory, with a drill-room large enough for its work, with ample racks, storerooms, officers' and non-commissioned officers' quarters, and a floor suitable for military purposes and social recreation. Such buildings could be built easily by the state, and would prove a profitable investment.

Moreover, in view of the fact that the National Guard has been armed and equipped and has been provided with most of its ammunition, clothing and tentage by the federal government and that at the last session of Congress appropriation was made to assist materially in the construction, equipment, and maintenance of target ranges, cannot the United States government reasonably expect the state to provide for the preservation of its military property?

Preliminary instructions, such as gallary practice, should have much more attention.

PLOTTING WITH HEARST.

Former Gov. Odell Again May Become Factor in New York State Politics.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Oct. 2.—[Exclusive Dispatch.] All the political signs pointed today to the resurrection of former Gov. Odell, former boss of the Republican party, as a master spirit in local and state politics, as a result of his industry and readiness to profit by the mistakes of Woodruff and Parsons, the Roosevelt managers.

A combination between the Odell and Hearst followers is a possible consequence of the break between the Independence League and Tammany Hall. This fusion, if accomplished, will be only on assembly and county offices.

The McCarren men heard tonight that Murphy had served notice on the Independence League that he would nominate opposition candidates in every district. The reply of the Hearst followers, in substance, was that they would not seek any combination with Murphy now or in the future. The Murphy and Woodruff-Parsons men were greatly perturbed over tonight's reports of a possible Odell-Hearst combine and hinted at a plot, which the Odell and Hearst followers did not deny.

TAFT MANAGER GETS POINTER.

Has Conference With President in Ohio.

Campaign of Secretary Not Running Smoothly.

Other Candidates Displaying Much Activity.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Oct. 2.—[Exclusive Dispatch.] Reports from Ohio state that Arthur L. Voorhis, Insurance Commissioner of the state and national manager of the Taft campaign, met President Roosevelt on his special train Monday and unfolded to him the difficulties in the way of the Taft boom.

This is confirmatory of numerous reports which have reached Washington from the Columbus headquarters of the Taft movement previous to the departure of the President for the West.

The manner in which the Taft campaign is being run is not pleasing to the Taft men in Washington, among whom is the President, and it is believed here that the President met Mr. Voorhis last night by appointment to give him a few pointers.

The Taft men have found the greater part of New England tied up by the friends of all other candidates who have combined against them.

LYNCHING IS POSSIBLE.

Posse After Chicken Thieves Who Shot Farmer from Whom They Were Pilfering.

(BY DIRECT WIRE TO THE TIMES.)
LEXINGTON (Ky.), Oct. 2.—[Exclusive Dispatch.] Capt. V. G. McMillen of this city, with two bloodhounds and a posse of armed citizens, tonight is battling robbers who attacked the chicken-house of a farmer in Woodford county last night.

The farmer fired on them and they replied, probably fatally wounding him.

If the men are captured it is feared they will be roughly handled, if not lynched.

CHICAGO NURSE GETS FORTUNE.

LEFT OVER HALF-MILLION DOLLARS BY UNCLE.

She is Called from Bedside of Patient to Receive Word That Relative Who Had Died in Australia Had Made Her Will—Will Continue to Work.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Oct. 2.—[Exclusive Dispatch.] Mrs. Helen St. Clair Noble, a pretty nurse at the Chicago Hospital, No. 425 Forty-ninth street, was called from the bedside of a patient Tuesday to receive the news that she had fallen heir to nearly half of an estate worth \$1,500,000.

Through the death of Col. Benjamin Carroll Dent of Kentucky, Australia, a ranchman, she falls heir to \$800,000. Word of the rancher's death and her part in the estate was carried to Chicago by Attorney Dudley Bagley, who traveled from Sydney by way of London to bring the news. Attorney Bagley, with a copy of the will and all the necessary papers to prove her claim, reached Chicago and notified Mrs. Noble today.

Mrs. Noble was born in New Orleans. Her parents were close friends of Col. Dent, who left his home after the Civil War for Switzerland, and twenty years ago journeyed to Australia, where he took up ranching. He died at the age of 78. Nothing had been heard from him by Mrs. Noble for two decades.

"I do not intend to change my plans at all," said Mrs. Noble. "I will finish my course and take up nursing. Just as if nothing had happened. Tonight I will go to New York and place this matter in the hands of attorneys there. Then I will return and complete my work. This money comes so suddenly that I can hardly believe it is true."

CLUBMAN WEDS SISTER-IN-LAW.

WILLIAM J. GORDON MARRIES WIDOW OF BROTHER.

Well-Known New Yorker, Divorced Late in August by His Wife, Who is Related to Dazen or More Prominent Families, Gives Hymen Swift Race.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Oct. 2.—[Exclusive Dispatch.] Both romantic and tragic in theme is the story that will stir New York's exclusive social set when fashionable folk get their first news of the wedding on last Saturday of Pittsfield, Mass., of William J. Gordon, member of a family, clubman and athlete, to his sister-in-law, Mrs. Edith R. Edward Gordon, widow of Carl Gordon and a daughter of an old and wealthy Staten Island family.

Not only did the act of Gordon in marrying the widow of his brother, whom he loved devotedly for many years when he was bound to another, recall a Hindu custom, but it made public for the first time the fact that his first wife, Maud Robinson Gordon, a relative of the Van Rensselaers, the Kings and a dozen other prominent families, had obtained a divorce in the Supreme Court in late August.

It was evident that Gordon, who carried his bride to the church in an automobile, had jumped from one matrimonial bond to another in rapid transit time.

The story of wedding bells and of scandal in high places has its most pathetic and most proud character in Mrs. Maud L. Robinson Gordon. As for her former husband and his new

On account of the rapid increase of our business we find we have not enough room to handle the clothing and furnishing goods together. It was up to us to discontinue one of these departments and enlarge the other. We have decided to make this an exclusive Clothing and Hat Store, consequently our entire stock of Men's Furnishing Goods, consisting of over \$20,000 of high-grade, staple, honest furnishings will be closed out at a fraction of their worth. You all know our reputation of handling thoroughly reliable merchandise, and the closing out of this department will afford you the greatest opportunity to buy these staple goods at big savings.

TELEGRAPH FIRMS INVOLVED.

New York Supreme Court Orders Them to Show Cause Why They Should Not Be Sued for Combination.

(BY THE ASSOCIATED PRESS.—A.M.)
NEW YORK, Oct. 2.—The Western Union Telegraph Company and the Postal Telegraph Company were ordered today by Justice Ford of the Supreme Court of New York State to show cause on Friday why the State's Attorney-General should not be permitted to sue them for forfeiture of their charters on the ground that they have formed a combination to increase telegraph tolls.

ATTY-Gen. Jackson, in his application, alleges that the combination was made January 1, 1907, and that a new and increased schedule of rates was put into effect and that the companies agreed to maintain joint offices at certain points and divide the profits of business received therein.

THE CITY IN BRIEF

NEWS AND BUSINESS.

New Sub-Station.

A new postal sub-station has been opened at No. 300 San Pedro street, in charge of J. H. Blum. It has money-order and registry departments. No One Blamed.

That the death of Abalone Kishner, the baby who was crushed Tuesday beneath the wheels of a truck driven by Henry Upton, was accidental, was the verdict of the coroner's jury after an inquest yesterday.

Post Cards Held Up.

In September, \$300 souvenir postal cards were held at the main postoffice because of faulty-stamp postages. Upon notification about one-half of the senders forwarded the additional postage; the rest of the cards were sent to the head letter office at Washington.

Bad Addresses.

During the past month 37,419 pieces of incorrectly addressed mail was received at the postoffice. By searching the directories the clerks were enabled to dispose of all but 172,716 pieces of mail, all of which is held in the general delivery department. The average number of daily letters at the office was 416, a large increase over preceding months.

Old Man Killed.

An unidentified man about 80 years old, was killed by an in-bound Long Beach car at the intersection of 10th and 11th streets last night. The man, who was walking behind a car, was crushed and his body mangled. The body was taken to Pierce Brothers' morgue.

Hughes at the Top.

John F. Hughes, for twenty-five years manager of the Walk-Over shoe stores in Los Angeles, has purchased the business from the former proprietors, W. F. Wright & Sons, of San Francisco, and hereafter, in name as well as in fact, the well-known clubman and Mason will head the establishment to the success of which he so long has devoted his energies.

He's Held Up.

Edward McBurney of No. 1314 East Thirty-ninth street, was held up by two men at Thirty-eighth street and Acacia avenue about 11 o'clock last night. He was relieved of his watch and \$5 in money. He furnished a good description of the men to the police. McBurney was going home when the men crossed a vacant lot and called on him to hold up his hands. One man pointed a revolver at him while the other searched his pockets.

BREVITIES.

Dr. W. Jarvis Barlow, the new dean, will be the guest of honor of the Alumni Association of the College of Medicine of the University of Southern California at an informal dinner at Levy's at 8 o'clock sharp this (Thursday) evening. Members of the faculty as well as the alumni expected to be present. At 7:30 Buena Vista street, where the opening exercises of the twenty-third annual session of the College of Medicine will take place. All friends of education are invited to these exercises. The Barlow Medical Library will be open for inspection. Take University car going east.

TEACHERS ON A STRIKE.
Ohio Schoolmarms Refuse to Work Unless School Board Pays Them Full Salary.

[BY DIRECT WIRE TO THE TIMES.]
COLUMBUS (O.) Oct. 2.—[Exclusive Dispatch.] The Board of Education of Syracuse reported today to State-School Commissioner Jones that the teachers employed there were on a strike.

The law requires that teachers shall be paid not less than \$40 a month, but the Board of Education of Syracuse, having made a miscalculation, levied 13 cents, found itself unable to pay more than \$25 a month.

MILLION FOR NEW PHONES.

HEAD OF LOCAL HOME COMPANY MAKES BIG PURCHASE.

President Cass Back from East, Where He Bought Equipment for San Francisco and Los Angeles Exchanges—Finds Prosperity General Throughout Country.

A. B. Cass, president of the Home Telephone and Telegraph Company of Los Angeles, has just returned from an extended trip in the East, in which he devoted his time principally to an investigation of the latest improvements in telephony and to the purchase of much new equipment for the local and San Francisco exchanges. Mr. Cass was absent three weeks, and among other places, visited Chicago, Pittsburgh, New York and Trenton, N. J. He purchased about one million dollars' worth of equipment for Coast exchanges.

One of the missions of the local telephone official was to purchase equipment for the great new exchange that the Home company is installing in San Francisco. He was requested to undertake this task by reason of his long experience with the Los Angeles company.

"I was accompanied," said Mr. Cass, "by General Manager Wachter of the San Francisco company, and by an expert telephone engineer. We studied the latest methods in vogue in some of the largest eastern exchanges, and gained valuable knowledge that will be of benefit to us, not only in Southern California, but in San Francisco.

The automatic exchange has come to stay. It is hardly necessary to repeat this statement in view of the success that has attended the installation of the system here. All the energies of the most prominent engineers now are bent toward the introduction of improvements that eventually will do away with a multiplicity of branch exchanges, with their complex features. In the future, it is safe to say, there will be but one exchange, in which all connections will be made. But this, of course, is only prospective. It will be some time before this height of perfection is attained.

"Such a change will mean the abolition of much costly apparatus now in use, and the first cost of the new equipment will be great, although it will mean a great saving in the long run in the reduction of the cost of operation and equipment.

"There are some cities in which the automatic system is used entirely. Portland, Or., for one. Our system in San Francisco will be entirely automatic. Work is progressing rapidly in the latter city. One thousand men are engaged in the creation of the system, and two handsome buildings are going up rapidly.

"In my travels through the country, I found a wonderful state of prosperity in every line. Factories are booming and the production of the soil never was greater, I believe. The crops of wheat, corn and other agricultural products are enormous, and there was no indication of a cause for the cry of depression raised in some quarters. There was no evidence, so far as I could see, of anything but a continuance of the prosperity and growth of our country. We have enjoyed for so long.

Rear-Admiral A. T. Mahan, the well-known authority on naval architecture, recently underwent a surgical operation at the Private Hospital Association sanatorium in New York City. The operation was entirely successful and Admiral Mahan is said to be recovering rapidly.

CITY JAM TERRIFIES BOLD INDIAN SQUAW.

Every Street Too Crowded for Little Rig in Which She Came from San Jacinto to Be With Her Husband in Trouble, so She Circles 'Round.

THIS is the story of the terrifying adventure of brave Joaquina Salgado, who ventured into much desperation for her husband's sake. Her husband is one of the Soboba Indians tried before the United States Commissioner yesterday for a little jamboree on the reservation near San Jacinto.

Boy and "Bay Jim," famous racers here in the early days. Ever since the murder of Chico Forster, Salgado has lived on the reservation at San Jacinto, marrying a handsome girl of the tribe, and raising four or five children. The day of the last Fiesta on the reservation, when the whole tribe went

To share what she believed to be his fearful danger, she followed him, with all her children—sleeping in the roads, begging by the wayside. Her own account of the dangers she imagined she was facing is naive and charming. She told it in Spanish.

What seemed to her the most terrible was the peril of being overrun by the "dreadful stampede of people" in the Los Angeles streets. She cried for a long time around the suburbs of the city before she plucked up courage enough to take her little brood and plunge into the buzz and roar.

Incidentally, she tells a pretty rough story about the arrest of the Sobobas.

Joaquina is the wife of Juan Salgado, a fat, fine-looking brute, who was a retainer in the Forster family in the days of their prime. When he was 12 years old he used to be a jockey for Chico Forster, and rode "Mountain

on a little "bat," her husband was arrested. "Sitting in jail yesterday, after the release of her husband, Joaquina told the little tragedy.

HOW THE FIGHT STARTED. "We were having a siesta at my house," she said, "and threw everything out of the window. Under a cupboard they found a demijohn that contained vinegar. They asked me what was in it and I told them, but they would not believe me, but poured out a glassful and tried it.

"I say this Yaqui at the court today," she said, "and threw everything out of the window. Under a cupboard they found a demijohn that contained vinegar. They asked me what was in it and I told them, but they would not believe me, but poured out a glassful and tried it.

"When he was gone I could not stay there alone. All remonstrated with me for my folly, but I insisted upon following him. I hitched up our wagon and our two horses and put in all my children and a friend whose husband was also seized, and we started.

"Of course I was terribly frightened. I did not know how to go and could not imagine what would happen to us, but I felt willing to risk everything to go to my husband.

"We started Sunday and rode all that day and Monday, getting here late. When night came, we had to camp out by the side of the road. We managed to pick up enough firewood and had food in the wagon.

"That was not much, for we are used to being outside. The dreadful part was when we came near the city. We two women were there alone with our babies. We did not know how to go. Trains without engines (street cars) came rushing by on every side and there were only houses and houses, but nowhere for us to camp.

"It required my utmost courage not to turn back and run away, but the thought of my husband drove me on. At length we came to the dry bed of a river and camped there. A Mexican woman also lived there and she kindly gave us firewood and helped us to get food.

"There seemed to us to be nowhere to get food and the trains and big fire shooting out fire (factories) all night long were terrible.

"Early in the morning we left our camp and came in to find my husband. We first entered a road far across the town from here. We turned back from it in fright. Wagons and horses and there were so many people that we were terrified for fear that we should be run over.

"We said to each other that it

HOG SQUABBLE STIRS VERNON.

THREATS MADE TO OUST BOARD OF CITY TRUSTEES.

Effort to Enforce Ordinance Against Dumping of Refuse on Their Own Land Arouses the Ire of Ranchers, Who Breeds Retaliation—Old Feud Revived.

Vernon is again in the throes of an internecine war. An attempt may be made to oust its Board of Trustees. A few months ago there was a bitter contest over the application of the City Gas Company of Los Angeles for a permit to erect a plant within the corporate limits of the small city on the southern shore.

The right of hog raisers to dump garbage and refuse on their own land. A section of the city ordinances was found yesterday by City Attorney Williams of Vernon forbidding the dumping of refuse, and seven ranchers were arrested on charges of violating the law. One of the number, F. G. DeTurk, who is wealthy, proposes to test the ordinance. He declares he will carry the case to the Supreme Court if necessary. The complaints are returnable before Justice Barrett of Vernon, but a change of venue probably will be obtained.

DeTurk owns a tract adjoining that occupied by Justice Barrett and it is said that DeTurk's efforts to prevent the flooding of his land last winter by the storm waters of the Los Angeles River resulted in an inundation of the justice's tract. Hence it is argued that Barrett cannot well sit in judgment.

Back of the campaign against the hog raisers is said to be a political feud that blazed during the heated contest over the City Gas Company permit. Trustee Stevens declared, so his political opponents aver, that he would "get even" with some of the men who have endeavored to oppose his efforts for civic progress. Trustee Leonis, owner of a saloon, and one of the most ardent opponents of the gas company, is behind Stevens. President W. S. Holland of the Board of Trustees is a wealthy rancher and raises hogs.

A deadlock is certain, unless Trustee Furlong casts his vote with Stevens and Leonis. Although Furlong heretofore has been an integral part of the "solid three," it is not known how he stands on the odorous garbage question.

As City Attorney Williams will receive \$5 for each arrest under the city ordinance, and as City Marshal

BACK OF HEAD BLOWN OFF BY A SHOTGUN.

Chester Silent's Death Case of Murder, Suicide or Accident—Coroner's Jury Adjourns Till Tomorrow Without Conclusion.

WITH the back of the head and left side of the face blown off by the charge from a shotgun, the body of Chester Silent, son of Hon. Charles Silent of this city, was found floating face downward in Felt Lake at Palo Alto, yesterday afternoon.

Whether it is a case of murder, suicide or accident has not been determined. The coroner's jury, after a two hours' session, was unable to reach a conclusion from the evidence presented, and adjourned until Friday.

The young man could not have been shot on the shore and then have fallen into the water, as the tide line the brink of the lake. The body had been in the water for several days when it was discovered by Stanford University students.

At the inquest, doctors testified that the fatal shot must have been fired at very close range, and expressed the opinion that the wound was probably self-inflicted. His friends say that there was no reason why Silent should take his own life, and that, when last seen, he was in good spirits and undoubtedly sane. Sheriff Langford scouts the theory of murder.

Two of the fraternity brothers of the dead man, Walter H. Hill and Ross W. Harbaugh, visited the lake at the suggestion of William Hill, who lives near it. Hill and Harbaugh went in a rig up the Villa road, taking a boat from the Laguna clubhouse with them. On arriving at the lake the students discovered that their boat leaked and then went around the north end of the body of water to secure another.

As they circled the lake Hill glanced over the water and his attention was attracted by some object near an old stump on the east side of the lake, about half way down. Investigation proved that it was the body of Silent, lying face downward. The horrified students saw that the back of the skull and the left side of the face were blown off. Search for a gun was unsuccessful.

An examination of the body was made by Drs. T. M. Williams and T. Wilbur, who found that the shot apparently came from the left side below the face. It was the opinion of Dr. Wilbur that smokeless powder must have been used, and all declared that there was no reason why he should commit suicide. The shotgun cannot be found, and there were no cartridges in the dead man's pockets. He was known to possess a double-barreled hammerless 12-gauge Farber. This is not in his room at the university. He also owned a Colt's revolver, and it is argued that if he meant to kill himself, he would have

used this weapon instead of a shotgun. He was accustomed to hunt ducks on Felt Lake, but had always had a companion with him on previous occasions. Silent was very fond of long walks into the hills back of Stanford, and almost every Saturday would don old clothes, shoulder his gun, and leave the campus for an all-day tramp. The affection about Felt Lake was one of his favorite haunts. He would often make the three-mile walk late in the afternoon, shoot a few ducks, and return to his fraternity house after dark.

MAN OF PROMISE. The young man was 22 years of age, and in the fifth year of his course at Stanford. He graduated from the academic course with high honors last May and registered in August for graduate law work. He expected to complete his law studies at Harvard next year.

Silent was not well acquainted among the students, because of his quiet and retiring manner, but in his fraternity he was very popular, and his death has caused great sorrow. He has never shown any traces of insanity. On the contrary, he had always been admired for his brilliant mind. He was very conscientious about his college work, and was constantly in demand by his fraternity associates for help in their studies. Although quiet and reserved among strangers, in his fraternity house he was the leader of all the "rough houses." He would often come charging from his room, after a long session of study, with a series of whoops which were signals for a general uproar. When studying he always locked himself in his room, but when at leisure, he was the jolliest and gayest of companions. One of his favorite "stunts" was to mount a chair and deliver a series of old "apple" which never

THAT man threatened to take my life. He pointed a double-barreled shotgun at my head and said he would blow my brains out. He also threatened to shoot my wife and two children. He was insane with anger, and I fear he will endeavor to carry out his threats."

This startling statement was made last night by W. J. Saunders, architect, of No. 3891 San Marino street. Only a few hours before he had visited the office of Prosecutor Fleming and had sought a warrant for the arrest of his neighbor, A. Lowinsky, who, he says, made the threats.

The warrant did not issue, but Assistant Prosecutor Ford will take up the case today.

Trouble which has been brewing for some time between the families of Saunders and Lowinsky came to a head yesterday. Lowinsky, Saunders told the prosecutor, brandished a shotgun in a murderous manner. With the weapon aimed at his head, Saunders said he stood his ground and invited Lowinsky to take a pot shot at him. For a horrible moment Lowinsky hesitated, Saunders said, and seemed to take aim; then he lowered his gun, telling Saunders he would "get him yet."

The architect declares that he is in danger, and that the lives of his family are menaced.

TWINS AND PEBBLES. The row began because Kenneth and Douglas Saunders, the seven-year-old twins of the architect, desired to coast down the sidewalk in front of Lowinsky's residence. Lowinsky is the leader of the orchestra at the Angelus Hotel. The grating noise of the coasting wagon rasped the nerves of the

Lowinsky's house. It scarcely casts a shadow on the Saunders' cottage. Following the completion of the spite fence, Saunders says he has found empty cans, rocks, clods of earth, grass and heaps of rubbish on his premises.

NO SHOTGUN, HE SAYS. "He'll have to prove that I threatened him with a shotgun," said Lowinsky last night. "He can't get witnesses, as the neighbors have no use for him. His wife's sister lives next door to him, but she won't help him out. They are all on my side. I never owned a shotgun in my life."

"I have been persecuted by those people for eighteen months. They are offenders against the peace and quiet of this neighborhood. They awake us at 4 and 6 o'clock in the morning by making hideous noises. They beat pans, rattle cans and make any kind of discord that it is possible to make. I wish I could sell my place and get out of here."

"Wait until this matter gets into the courts. I will expose them. I will open people's eyes when I tell what they have done to me. My wife and I are distracted over this trouble. I am almost crazy. Let them go ahead if they want to; they can't prove anything, because they haven't got any witnesses."

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

City officials have reached the conclusion that the charter revision committee shall be increased to forty-five members and that a number of religious bodies shall be asked to send delegates.

The Health Board has recommended to the Council that a bounty be offered for dead rats; it also asks all citizens to join in a crusade against the mischievous rodents.

Edward Freund, on trial for alleged mayhem, yesterday told of his wanderings for five years to escape the charges of the law. He denied that he gouged out Salomea Hunter's eye.

Announcing testimony was given yesterday in the trial of Viron D. Mitchell on a charge of assault with intent to commit murder, in which it was asserted he shot at his wife and hit his mother-in-law.

Two actresses who caused the arrest of young man on charges of insulting and assaulting them, failed to appear for the prosecution in the Police Court and officers were instructed to find them.

AT THE CITY HALL.

FEAR BURS IN NEW CHARTER.

CITY OFFICIALS FAVOR LARGER COMMITTEE.

Mayor Harper Advocates a Committee Composed of Forty-five Delegates—Knotty Questions to Be Submitted as Alternate Provisions. Also Ministers to Help.

Disappointed with the progress of the Charter Revision Committee, the city officials who compose a part of the body have determined to recommend at the next meeting that the number of delegates be increased to forty-five, and that at least a dozen representatives of semi-municipal character now represented be asked to send delegates.

There is still a difference of opinion whether the city shall have a broad-based charter or shall elect a few men to write the old one. If the charter is amended it will not be necessary to appoint a board of freeholders and a great deal of red tape can be discarded.

The Mayor advocates that the Municipal Union, the Civic Righteousness League, and other religious organizations, representing a large number of citizens, be asked to name delegates to the committee of forty-five.

"I feel that we are making a mistake in limiting the number of committee members to eighteen," said Mayor Harper last night. "If we increase the number we shall get a broader view, and in the end we shall have a charter that is likely to meet the approval of the majority of the voters. There is grave danger that amendments proposed by a committee of eighteen will be discarded."

"In selecting members for the committee all citizens should be recognized. It is a mistake to give special representation to the religious societies. There are all working for better conditions in the city and it is the duty of the committee to select men who are sincere in their ideals, but their religious affiliations are well worth hearing."

Present indications are that the election of the charter revision committee will be held in the latter part of the year. The Board of Public Works and the Board of Health are expected to be included in the alternate proposals.

Frank forms of plural voting, permitting an elector to vote for as many as three candidates for single offices have been proposed, and some of the pink-tea reformers would like to see them submitted to the people.

There is a disposition on the part of city officials to increase the salaries of Mayor, Councilmen and the heads of the police and fire departments by a charter provision. They would like, however, that these increases shall be suggested by delegates who are not at present on the pay roll of the city.

BOUNTY FOR RATS.

HEALTH BOARD RECOMMENDS Adopting a recommendation from Health Officer Powers, the Board of Health has asked the Council to offer a bounty for dead rats. The board also asks all residents of the city to join in a general crusade for the extermination of the rodent pest.

At yesterday afternoon's meeting of the Health Board, Dr. Powers submitted the following report:

In view of the fact that rats are in the city and that the commercial relations of the city are being injured by the pest, the board recommends that a bounty be offered for dead rats. The board also asks all residents of the city to join in a general crusade for the extermination of the rodent pest.

The local health department has been working with the State and the Federal health authorities ever since the first announcement was made that the plague existed in San Francisco. The object of these boards is to assist the people in taking precautions that will minimize the possibility of the spread of the disease.

Muhlenberg has lost much of its prestige for the health authorities since the nature of the disease and the manner of its transmission have become better understood.

"The State and marine boards feel confident that they shall be able to confine the disease to a limited quarter in San Francisco," said Health Officer Powers last night. "If the people here will all join in a crusade against rats it will be easy to protect Los Angeles against possible contagion."

BOARD WINCES.

CRISIS AGAINST RETRENCHMENT. "Wow," squealed the health commissioners yesterday, when they considered the new salary ordinance that cuts off seven health inspectors. The board insists that it needs all the necessary and more, and that the Council is a mean old thing for making the health board a scapegoat for other and more extravagant departments.

reductions planned will cripple seriously the department.

Mayor Harper has promised not to sign the new ordinance until the board has an opportunity to show the Council the error of their ways.

AT THE COURTHOUSE.

AT BAR AFTER LONG FLIGHT.

PRISONER ON MAYHEM CHARGE DENIES HIS GUILT.

Fled Five Years Ago, Following Tussle in Which Salomea Hunter's Eye Was Gouged Out, but Says Victim Caused His Own Injury. Kept on Move Through Fear.

Edward H. Freund testified yesterday in his own defense, in Department One of the Superior Court, where he is on trial on a charge of mayhem, in connection with the gouging out of the left eye of David Hunter, an aged saloon-keeper October 24, 1925. Freund declared the gouging must have occurred accidentally, as the old man fell under the bar among some bottles. Freund said he did not strike Hunter in the eye.

Hunter, testifying for the prosecution, could not say in what manner of weapon he believed Freund struck him, but was sure his eye was gone before he fell. Besides the loss of an eye, he declared, his nose and two teeth were broken.

Detective Hawley told of Freund's wanderings, as he said they had been related to him by the defendant, while the detective was bringing the prisoner from St. Louis last June.

"He told me he was advised to leave Los Angeles after the trouble," said Hawley. "He got a ticket for San Luis Obispo, and from there went to work in the mines. Later he went by steamer to San Pedro, and returned to Los Angeles in November, 1925. Hearing that he was still wanted, he went back to San Pedro, shipped for Los Angeles, and stayed a year. Then he returned to Seattle, and from there to New York City, and later to Bush, where he married."

With his wife, he returned to his old home, Cleveland, O. He had been there only a short time when he learned the officers were after him. He left quickly, and half an hour after he left, a plain-clothed man called at his step-father's home looking for him.

Freund, at last on trial after his five-year flight, smiled brightly at the recollection of his narrow escape in Cleveland.

Questioned by counsel as to earlier wanderings, Freund told of military career in the Spanish-American War and the insurrection in the Philippines, coming gradually to his arrival in Los Angeles in April, 1925.

"I used to stop once in a while in the Hunter saloon, at Ninth and Main streets," he said. The night of October 24, 1925, he was sitting at a table, and a car, and asked them if they didn't want a drink after their ride.

"We went into the back room of the saloon, and I ordered some beer. Hunter said: 'Damn you, you're always making trouble for me. Come and get it.' He said he was drunk, but we did not drink it."

"I walked out in the front room to pay him, and he raised a glass he had in his hand to throw it. I stepped back and he hit me with the glass. I hit him on the head, and he fell. I heard the glass shatter, and I heard the crash of broken glass as he fell among the bottles under the bar."

Telling of his long flight, and the impulses which impelled it, Freund said he wanted to make sure of getting witnesses before being arrested. He thought he could do it better at liberty than in confinement. He assumed the name of Edward H. Freund. When he could not find the witnesses, he gave up the idea of surrendering himself and fled.

The argument in the case was opened by special counsel for the prosecution, employed by the old saloon-keeper, Attorney Hunsaker followed, for the defense, and the argument will be continued this morning.

MOTHER-IN-LAW SHOT. DAUGHTER'S MATE ON TRIAL.

Persons, white and black, of various types, testified yesterday in the case of Viron D. Mitchell, on trial in Department Nine of the Superior Court, accused of shooting at his wife and wounding his mother-in-law in the arm.

The shooting took place in a lodging house, No. 1748 New Hampshire street, at 2 o'clock in the morning of August 11, and aroused the neighborhood.

Witnesses for the prosecution testified to hearing two shots. On the point, chiefly, the testimony for the defense differed from that of the other witnesses, all of whom called for the defense were quite sure they heard three shots.

The defense hopes to show that a shot fired at Mitchell before he opened fire.

Jacob F. Fogie, stage manager for a local variety theater, was a witness for the defense.

"At the first shot I jumped out of bed and ran to the window," he said. "I didn't see anything, but I got on my trousers. There was about a time to come, then before the other two shots came, together. I got my trousers on pretty quick, and started out."

"There was a great hollering over there at No. 1748, yelling for 'murder help.' I ran over and saw that fellow, Charles L. Walcott, on the porch, with a gun in his hand. I was waving my hand and he was trembling so much that I thought he was going to shoot me."

accused his wife of robbing him, poisoning him and treating him frightfully in other ways, while his wife in her answer declared her fencing-master husband was insane.

The testimony, especially for the cross-complaint, was perfunctory, and largely with the trifling value of a house and lot at No. 221 West Thirtieth street, on which \$800 has been paid.

The court declined to lend itself to the purpose of determining the division of this property, largely into attorney fees, when it involved the hearing of lengthy arguments and exhausting examination of witnesses.

The attorneys in the case are Hugh W. Adams, for the plaintiff, and E. Hardesty and C. S. Anderson for the defendant.

COURTHOUSE NOTES. BREVITIES MISCELLANEOUS.

LEGAL POINT. A question of law, with apparently no precedent to aid in settling it, was raised in Justice Stephens's court yesterday when Adolph Feldschar and George Feld, charged with disturbing the peace at Ocean Park, were brought up for trial.

Arraigned before Recorder Wheat at Ocean Park, the accused for a change of venue and their cases were transferred to the court of Justice Jennings of Santa Monica, who died before the case came to trial. Recorder Wheat then transferred the case to Justice Stephens's court, and the question raised is whether he had jurisdiction.

DAMAGES STIPULATED. Ruth Duffy, a minor, will receive \$1000 damages for injuries received in falling from a car which started abruptly while she was riding on it. The stipulation was made in Judge Convey's court yesterday, between her guardian and counsel and the Pacific Electric Railway Company. The complaint, in which \$10,000 damages was asked, alleged that injury had resulted to the plaintiff's voice and might prevent her making use of her training as a singer.

RAN AWAY. Louis Glensfeldt, who was given custody of a son placed on probation by the Juvenile Court, was before Judge Wilbur yesterday, charged with contempt. It appears that he had feared that Alcock would share the fate of two other sons, who had been sent to Whittier, hence his flight. He will be permitted to make further explanations to the court next week.

THE INFERIOR COURTS. Young Women Who Accused Men of Insulting Them Fail to Appear to Prosecute.

The prosecution of W. C. Buchanan and S. D. Walker, charged with disturbing the peace, was postponed yesterday in Police Court because Miss Emma Larkin and Franz Weingartner, the prosecuting witnesses, failed to put in an appearance. Officers were instructed to search for them. The men are charged by Patricia Bonner, a young woman, with insulting and then assaulting the young women.

The affair took place more than a week ago at Fourth street and Broadway, late at night. The young women, who are single and unmarried, returned from an engagement at Long Beach, and were bound for their rooms on Grand avenue, when approached by Buchanan, Walker and another man.

The girls screamed when addressed by the trio, and one of the actresses remarked that she would follow Buchanan and Walker until she found a policeman to arrest them.

According to a statement filed with her complaint, the young men then attacked her, beating her in the face and knocking her down. Her companion, Miss Weingartner, feared little better. The young men fled, the girls pursued, and the following day Miss Bonner and Larkin appeared at the Police Station and filed complaints against the men, charging them with disturbing the peace. Miss Larkin exhibited a bruise on her face as evidence that one of the men had struck her.

Yesterday both the defendants appeared in court, but the complaint against them, found they had moved from their apartments on Grand avenue. It is said they have gone to Chicago.

"If young women who are compelled to be on the streets at night without escort expect to be protected by the officers and the local courts, they must fight this timidity and be ready to oppose the men who insult them," said the prosecuting attorney.

"If we arrest men on charges of this character and then fail to prosecute them it will only increase the number of cases of this kind."

Miner Pays for Fuss. A. L. Brader, a wealthy mining man of Mexico, was fined by Justice Austin in Police Court yesterday on a charge of disturbing the peace. Officers testified that Brader went to the Orpheum Theater Tuesday night and raised a disturbance because he could not obtain the seats he wanted. He paid his fine readily.

COLLEGE WOMEN ORGANIZE. Los Angeles Branch of Association of Collegiate Alumnae Formed.

Officers Elected. At a gathering of college women at Hotel Alexandria, there was formed the Los Angeles branch of the Association of Collegiate Alumnae. The general association of Collegiate Alumnae has for its object the uniting of the alumnae of different institutions for practical educational work, the collection and publication of statistical and other information concerning education and the maintenance of high standards of education.

Its specific work has been the raising of funds to support fellowships in the foreign universities for advanced work of college women, 150 of whom have been thus helped and encouraged.

The local branch has been formed to cooperate in the general work and to lend strength and influence in this community to all that a college-bred woman should represent. The following officers were elected: President, Mrs. Robert J. Burdette, Pasadena; vice-president, Mrs. Andrew E. Loeblinger, Los Angeles; secretary-treasurer, Mrs. Seward A. Simons, Pasadena; director, Mrs. O. Shepard Barnum, Los Angeles.

PERSONAL. On his way around the world, E. R. Wright, of the prominent newspaperman of Cleveland, O., arrived in this city yesterday, and is making the Alexandria his headquarters. He is accompanied by his wife.

EIGHT PRINTERS WALK OUT AND PLACES ARE FILLED.

Present to Employers Round-Robin in Document in Which Union Day is Respectfully "But Emphatically" Demanded—Foreman Accused of Treachery to Firm.

Through the alleged treachery of a foreman at the shop of the Newman Company, printers and bookbinders, on South Los Angeles street, eight employees struck Tuesday, but their places were promptly filled by capable non-union men.

On Monday night a "round-robin" letter was presented to the Newman Company, printers and bookbinders, on South Los Angeles street, eight employees struck Tuesday, but their places were promptly filled by capable non-union men.

Letting the letter read: "We, the undersigned employees of the Newman Company, believing in the eight-hour day in printing offices, respectfully, but at the same time emphatically request that the eight-hour day go into effect tomorrow, October 1."

To the dismay of the strikers, their example has not been followed generally in the printing and bookbinding shops of the city. A general strike was ordered recently by the international union, but most of the local ems are well satisfied with their pay and hours of labor that the order was not obeyed.

Printers and bookbinders are given a half-holiday Saturdays, and their pay averages \$19.50 a week. Unless their refusal to join the general strike will result in expulsion from the international union, the local men will not give up their positions. They realize a moment's notice, and are afraid to jeopardize their prospects of steady employment for the uncertainty of a strike.

Tokay Wine Failure. This year's output of the famous Tokay wine has been entirely lost in consequence of an unexpected outbreak of phylloxera. Tokay is made from grapes grown in the vineyards belonging to the Emperor Franz Joseph, at Hegyfalva, Hungary, and is now used chiefly for presents to other crowned heads.

"BROWNISSMS" FOR BAPTISTS.

Tells How Some People "Take the Flop."

Church Letters Make the Crowd Run.

Automobile School Plans of the Y. M. C. A.

The second day of the Los Angeles Baptist Association's thirty-ninth annual meeting was well attended yesterday in the East Los Angeles Baptist Church.

This is the association's business and is presided over by E. E. Selph, moderator. It was opened in the morning with an impressive service of praise and prayer, led by G. P. Wallis, following which Rev. F. G. Cressy, pastor of the East Los Angeles Church, delivered an address of welcome. E. E. Selph, moderator of the association, responded for himself and the brethren gathered here from thirty-seven churches throughout Southern California.

The three strong churches in the territory are Temple Church, this city, with 200 members; Pasadena Church, 100 members; First Church, this city, 100 members. The only other congregation that approached the figures is Memorial, this city, with 294 members. Twelve of the total number of churches are located in Los Angeles.

The officers of the association are: Moderator, E. E. Selph, Los Angeles; Secretary, Rev. J. B. Thomas, Los Angeles; Clerk, Rev. George Taylor, Gardena; Treasurer, W. C. Badeau, Gardena.

The annual sermon was preached before the noon adjournment by Rev. H. Russell Graves of Monrovia, on the topic, "Christ, the Son of God." BRIGHT YOUNG PREACHER.

The afternoon was principally taken up by the reading of the "Church Letters," and a sermon on "The Genesis of the Spiritual Life," by Rev. R. R. Brown, assistant pastor of Temple Baptist Church. Mr. Brown is a young and attractive preacher and made a good impression upon the congregation by his sermon. Among other things, he said:

"Spiritual life has never been known to result from education. Sure education may have resulted in a growth in grace, and a consequent growth into the spiritual life, but not through training or education."

"Spiritual life does not come through my own will, or through mere information. Here is one of the mistakes of Alexander Campbell and the Campbellites Church; they claim that the truth illuminates the word."

"Many persons have been baptized in the Baptist Church, who have no spiritual life, and there are many who have never been baptized who have a spiritual life."

Mr. Brown, who is fresh from college, illustrated the position of people who think that the only thing necessary for salvation is to join a church, by saying:

"They take the flop, like the boys in the gymnasium, when they join the church, and then go right on in the way they have been going."

CHURCH LETTERS. One of the peculiar things about a Baptist convention is that it will devote the big part of a half day to having the "church letters" read to the convention. They cannot possibly be interesting to a body of people, and as soon as the reading begins the people begin to run. Here is one, purely imaginary, but made over the stereotyped pattern:

"Our pastor has been a joy to us during the year, and his labors have been greatly blessed. Deacon Jones, one of our most faithful and obedient members, was called home to heaven last June, leaving a devoted wife to mourn his loss. Our church building has been re-painted during the year, by the untiring efforts of the Ladies' Aid Society. A great misfortune befall us in the removal from our midst of a number of our best members, and we are therefore compelled to report a slight loss in membership this year, but we will take courage and go forward."

It really becomes quite wearisome by the time you listen to that kind of thing, particularly when some contain long and elaborate eulogies, or long details of some other kind.

Last night Rev. Watson preached on "The Growth of the Spiritual Life." Rev. F. G. Cressy read the report of the Committee on Christian Education, and Rev. J. N. Field read the evening with an address on the Educational Movement in Southern California.

This morning a number of addresses will be delivered on various topics, the missionary society will meet in the afternoon and the convention will close with a sermon by Rev. Robert J. Burdette in the evening.

SOLTAU LECTURES. FAMOUS BIBLE TEACHER.

Rev. George Soltau of London is delivering a two-weeks' series of Bible lectures in this city, the first week being at the Third Presbyterian Church, and the second at First Baptist Church.

The general topic this week is "Possessions of Grace," and tonight he will speak on "Grace." Next week, "The Morning Life" will be the subject.

Soltau is a famous Bible instructor and his lectures are pronounced to be of the highest character. Every attendant at the meetings is requested to carry a Bible and note-book.

AUTOMOBILE SCHOOL. MAY GO DAY AND NIGHT.

The Educational Committee of the Young Men's Christian Association yesterday decided to open the evening automobile school on October 22. With the opening of the new building, yet distant in the future, the committee expects to equip a large automobile school and operate it continuously during the evening, and if necessary during the day.

The school is open to all who are interested in the subject, and it is expected that a day school will be opened at the same time the evening school is opened. October 22, E. E. Selph, who had charge of the school last year, has been engaged to be in charge of the evening school, and it is expected to be opened on Monday evening.

enrollment is reported in the city in mining and assaying, Spanish engine, surveying, mechanical and architectural drawing, bookkeeping, and other subjects.

The opening of the school is a very important event, and the committee has been postponing it for some time.

The school is open to all who are interested in the subject, and it is expected that a day school will be opened at the same time the evening school is opened.

To Improve The Complexion.

Home Treatment Said to be Most Effective in Bringing the Glow of Health to Sallow Faces.

The wash and massage as given in the formula below comes from the noted French dermatologist and is most generally used among the ladies of the exclusive social circles of Paris where powder and cosmetics of all kinds are now scorned.

Obtain from your druggist the following: Two ounces Rose Water; one ounce Cologne Spirits; four ounces crystallized Borax (skin food).

Put the Borax in a pint of hot water (not boiling); let it cool, then strain through a fine cloth into a bottle or small fruit jar and add the Rose Water and Cologne Spirits.

This will make a sufficient quantity to last for a long time and is an inexpensive toilet preparation, at the same time being the most effective known to the profession. The only thing to remember in using it is that it must be well massaged into the skin. If this is done and it is used persistently it is remarkable how it will restore that enviable youthful bloom.

Patient at County Hospital Believed by Physicians to Be Thinest Man Alive.

William Bond, a Holy Roller, is a patient at the County Hospital. His case puzzles the physicians, who think he is probably the thinnest man alive. He weighs only sixty-nine pounds, and, except for his lack of flesh, is apparently in good health. Bond was offered an engagement with the Ringling Brothers circus, he says, but his religious principles would not allow him to accept the offer. He is only 19 years old, and is anxious to get fat. Young Bond recently came to Los Angeles from Willets. He says he was deserted there by a brother, who had promised to care for him. In this city he was given shelter at Dr. Yakub's home in Highland Park. Suddenly he began to lose weight rapidly, and now is little more than a skeleton.

Good food and careful nursing seem to have no effect, and the patient has been put in the consumption ward, although his lungs are in good condition. Yesterday he was examined by a doctor who has examined him at a loss to explain his condition. Before his affliction, he says, he weighed 180 pounds. He was then living with his parents in Kansas City. This holy-eyed young man is persistently eager for flesh. Yesterday he declared his willingness to undergo any operation if it would do any good. Doctors who have examined him are at a loss to explain his condition.

Woman Stricken With Ptomaline Poisoning at Theater Fights and Is Injured by Fall.

Stricken with ptomaline poisoning, Mrs. Frank Williams fainted yesterday afternoon during the performance at the Mason Opera-house, and sustained painful injuries by pitching headlong against the arm of one of the balcony chairs. She had been eating candy.

At the close of the third act, Mrs. Williams arose and attempted to leave the theater. She complained to a friend of dizziness and pain in her stomach. Before she had taken a dozen steps, she fainted.

An usher carried her to an ante-room and a physician was summoned.

The Offer of Free Office Treatment Generously Given For All Diseases

CALL TODAY—BRING THIS ADV.

The skill, faith and fame of the specialists of the Los Angeles Medical Institute accounts for the large attendance and the general interest. It would be a very simple-minded person who would attempt to account by the offer of free services in and of itself, for the crowds thronging our offices, for the public interest, for the general gratitude and for the very avalanche of letters from sick people. The fact that we are giving our services free does not account for any of these things. Of course sick people like to feel that they are receiving medical care at a small cost, but this is only a minor consideration. What sick people want to feel and know, what their loving and anxious families and friends want to feel and know, is that they are receiving the very best medical treatment that can be obtained, if our treatment was not the very best our offer would be received with indifference. Bad treatment is bad, even if given free.

No, the throngs of patients are accounted for by the fact that all these people know that they are being admitted to the benefits of a practice that has commanded for years the respect of the profession and the public. They know that they are obtaining care and treatment that they could not obtain anywhere else for any fee, high or low. They know that under this opportunity they may be relieved of diseases which no other method of treatment has been able to even benefit. They know that under this opportunity they receive the best treatment and best professional skill.

They know that under this opportunity they are going to be cured. And it is this that accounts for the throngs of people, the interest and gratitude, and avalanche of letters and (what is more important than anything else) for the warm and hearty commendation of right-thinking people.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

The Oyster Season

The oyster season is a month old.

Some of the oysters are even older.

But, of course, St. Louis couldn't

pull off the show without a rainstorm.

Clarence Darrow is reported in a

hospital. Injury to his jaw, doubtless.

If the meat trust continues to raise

prices it may succeed in busting itself.

Mr. Bryan has decided to assist Tom

Johnson in his fight for reelection. He

will remain in Nebraska.

Trying to run a street railway in

San Francisco is not what you might

call "a piddler."

It will be recalled that the Presi-

dent has not taken water, but has

simply taken to the water.

The great respect paid to what Mr.

Roosevelt says is due to some extent

to the results of what he does.

That should not feel bad because

he has been called "a postponer." He

has every man on earth for company.

The idea appears to be that if the

government will dig out the mud the

Mississippi will fill the hole with wa-

ter.

Somehow or other we haven't noticed

any special reference to "Gum Shoe

Bill" in the accounts of the St. Louis

celebration.

It is the price of the necessities and

not the luxuries of life that are being

increased. A laugh is as cheap now as

it ever was.

Judging from the reception tender-

ed the President in St. Louis there

must be a few Missourians still left

in Missouri.

"What the navy needs is a reserve,"

says the Boston Transcript. It could

probably have a reserve much easier

than an active list.

The next time Pennsylvania launches

a Presidential boom care will be taken

to prevent the name of Philander from

appearing on the gas bag.

When the President said "By

George" it didn't seem to shock the

Missourians. They could probably

stand it a great deal stronger.

It would be a great scheme to dou-

ble-back the Mississippi so that one

side of it would flow up hill while

the other side is flowing down.

What will interest Alton B. Parker

in next year's election will be to see

whether it is possible for any man to

be beaten worse than he was.

Of course the President may make

a possible exception of the Rough

Riders when he makes the statement

that all men should be treated alike.

If Gov. Johnson is nominated for

Vice-President on the ticket with

Bryan, it will go hard with the Swedes

of Minnesota. That kind of ticket

can't be split.

A Seattle newspaper speaks of what

it calls the Sweeney-Anker-Piles Sen-

atorial combination. God help the

THE ACQUITTAL OF BORAH

The acquittal of Senator Borah

of Idaho will be a great disappoint-

ment to those yellow-dog newspapers

and their numerous followers who

take the ground that when a rich man

or a man of high standing is ac-

cused of a crime—merely accused—

he should be railroaded to the peni-

tentiary, whether he be guilty or not

guilty, deserving or undeserving.

Senator Borah was attacked by a

gang of vicious political enemies.

He was prosecuted, not in accordance

with the fundamental ideas of justice,

but after the manner of a political

campaign—paid daggers and news-

papers joining in the cry of his vin-

dictive pursuers, declaring him

guilty before he was tried, and de-

nouncing those who stood by him.

It would be an awful thing if politi-

cal microbe were able to manipu-

late courts of this country and save

the trouble of meeting their enemies

or gratifying their grudges at the polls

by imprisoning their opponents and

feeding fat their hatreds on the suffer-

ings of their opponents' children.

Such a condition would be worse than

anything in darkest Russia.

It would be a horrible thing if any

combination of power and wealth, or

of demagoguery and mob-spirit, should

be enabled to use the judicial ma-

chinery of the government to lock up

business rivals or victims of its re-

venge in dungeons, and to promote

private plots or intrigues. It shocks

us to hear of the possibility of such a

thing.

Senator Borah faced his political

and business enemies with the right

spirit. He concealed nothing, evaded

no way. He went on the stand, told

his story frankly and made such a

convincing presentation of his case

that, without argument, he was un-

animously acquitted.

The Times always has had and still

has a high regard for the courts of

the land. While there are some mis-

carriages of justice, the spirit of fair

play, innate in the American people,

generally permeates the jury room.

As a rule cases are decided on their

merits, in accordance with the evi-

dence as presented, in spite of the

tricks of schemers and the sophistries

of counsel.

Senator Borah's triumph over the

wiles of labor-unions conspirators,

political enemies and the fortune-

hunting birds of prey, that would pick

his bones, is a fresh vindication of our

system of administering justice and

of American fair-mindedness; it is a

most encouraging indication that lat-

ter-day attempts to prostitute the

courts to the interest of any secret so-

cieties, faction or clique will fail in

the future as they have failed in the

past.

LET THEIR NAME BE LEGION.

The Times is gratified to note

"KIDNAPED."

[With apologies to Robert Louis Stevenson and others.]

THE STRONG BACKBONE OF OUR INDUSTRIES

Perhaps the most significant utter-

ance of President Roosevelt at Ke-

okuk, Iowa, on Tuesday, was in refer-

ence to the preservation of what is

left of the public domain for division

into small farms which shall be cul-

tivated by those in whom the title is

vested. This has been theoretically

the purpose of the American govern-

ment from the beginning and it has,

to a certain measure, been success-

fully carried out. Of course we can-

not forget the efforts of the "land

grabbers," or that these efforts have

been in too many cases successful.

But the laws passed by the Congress

at all times have aimed to reserve

the public lands for actual settlers and

in comparatively small areas.

There is but comparatively little of

the great public domain left. This

area will be greatly enlarged by the

work of the Reclamation Service now

in operation and by the provisions for

irrigating arid lands heretofore looked

upon as worthless. As the public do-

main becomes more and more con-

tracted, lands now deemed of little

value will be found to possess a very

considerable value. With the irriga-

tion policy in effect and the educa-

tion of our people in better agricul-

tural methods, there will be found still

room to establish vast numbers of

homes for future American citizens.

Here is the strong backbone of

American citizenship, to support in a

stable manner the free institutions

which make our country what it is.

Any country whose lands are held in

large areas by absentee landlords and

rented out in small parcels to a

peasant tenantry will not sustain the

characteristics becoming American

citizenship. Nor will it be in great

cities or in congested manufacturing

communities that the best manhood

of our country will ever be found. We

must rely upon the open country, with

its plentiful supply of pure air, its

simple habits of life, its touch of

nature and uplifting scenery for the

production of the best that there is

in human life.

If we took a census of our popula-

tion as it is today and tabulated the

An enthusiastic audience of clubwomen was present, ready to receive the annual session of the Southern California Woman's Parliament, which opened Tuesday at the Commodore Hotel, No. 1400 South Figueroa street.

In the report of the nominating committee it was stated that Mrs. Lucy A. Blanchard, vice-president-at-large, would be unable to serve for another term on account of her many other duties.

The district officers are: Mrs. A. J. Telford, president; Mrs. F. H. Telford, secretary; Mrs. M. J. Telford, treasurer; Mrs. J. H. Telford, secretary-at-large; Mrs. J. H. Telford, secretary-at-large; Mrs. J. H. Telford, secretary-at-large.

SILENT'S BODY FOUND.

(Continued From First Page.)

His habits were of the best, and he did not drink or smoke. He rarely participated in the social affairs of the university, and his acquaintance among the gentler sex was very slight.

During the past summer Silent spent much of his time at his father's ranch, on the little back of Glendora. For a time there was some question as to his being allowed to return to college this term because of his weak eyes, but the vacation proved so beneficial to him that his father consented to his resuming his work.

Fluence Silent, sister to the dead man, is now on her way to Los Angeles from Lake Tahoe, and will arrive this morning. His parents are in Palo Alto. It is expected that they will bring the body here for burial, although nothing definite is known as to their plans.

Yesterday the supposed clerk given by E. M. Moore, a rancher living near Palms, was investigated. Posses started from Ocean Park and Los Angeles at daybreak to search for the missing man. Edward D. Silent, brother of the student, headed one party, and his son, Roy Silent, headed another. All the beach towns were visited.

Members of the Ventura Club, headed by Special Policeman Jack Hendrickson, scoured the mountains back of Hollywood on horseback.

He's Arrested on Charge of Obtaining Money Under False Pretenses—In Explaining, Lapses Suddenly from Dignified Periodic Trouble Over Lost.

Abraham Jacoby, a very staid real estate dealer of this city, was arrested yesterday on a charge of obtaining money under false pretenses. The complaint is sworn to by Mrs. Nancy Martin of Goldfield, and many unkind things are said of him.

That when the constable of Justice Stephens' court served the subpoena on him yesterday, he stuck it in his pocket with the laconic comment: "All right. I'll attend to it."

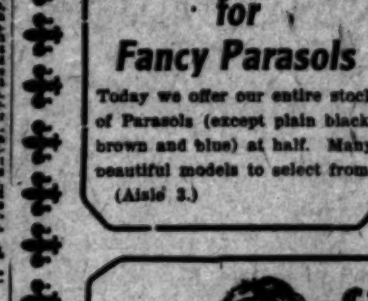

When told that he must attend to it by appearing before the Justice of the Peace, and that he must give bond before he would be allowed to return to his respectable avocations, his dignity was very much upset.

"It is an outrage," he declared. "I never got a cent of money. It is nonsense. I will make them pay for this."

The complaint charges that Jacoby represented to Nancy Martin that he could give her a clear title to lot No. 21 of the Strawberry Park tract, and would do so for \$100, to be paid in monthly installments of \$50 each.

Assessor Finds Inequalities in
Ranch Property.

Rich Land Low on Books,
Others 'Way Up.

Deputy Is Ordered to Place
Real Worth on All.

County Assessor E. W. Hopkins has begun an investigation of complaints that assessments on ranch property in Los Angeles are unequally distributed—that like property in various sections is not assessed at like values. From complaints reaching him, he says he is convinced that there are many inequalities in the assessed values on land and improvements in many parts of the county.

One of his first acts on assuming office was to deputize Frank Wheeler of Claremont to make a thorough investigation in the eastern part of the county, and to equalize the values if he found any property unjustly assessed. The report of Wheeler led the assessor, accompanied by Wheeler, and a photographer, to make a tour of inspection yesterday.

The party left Claremont by automobile, examined into the assessed values of property in that district and in Fresno, then in Los Angeles, La Verne and San Dimas. At Covina they were received by J. L. Mathews, Col. F. M. Chapman and other leading citizens, who entertained them at dinner at the Covina Country Club. Orange groves of that territory were examined, the owners complaining that there were many higher than neighboring districts.

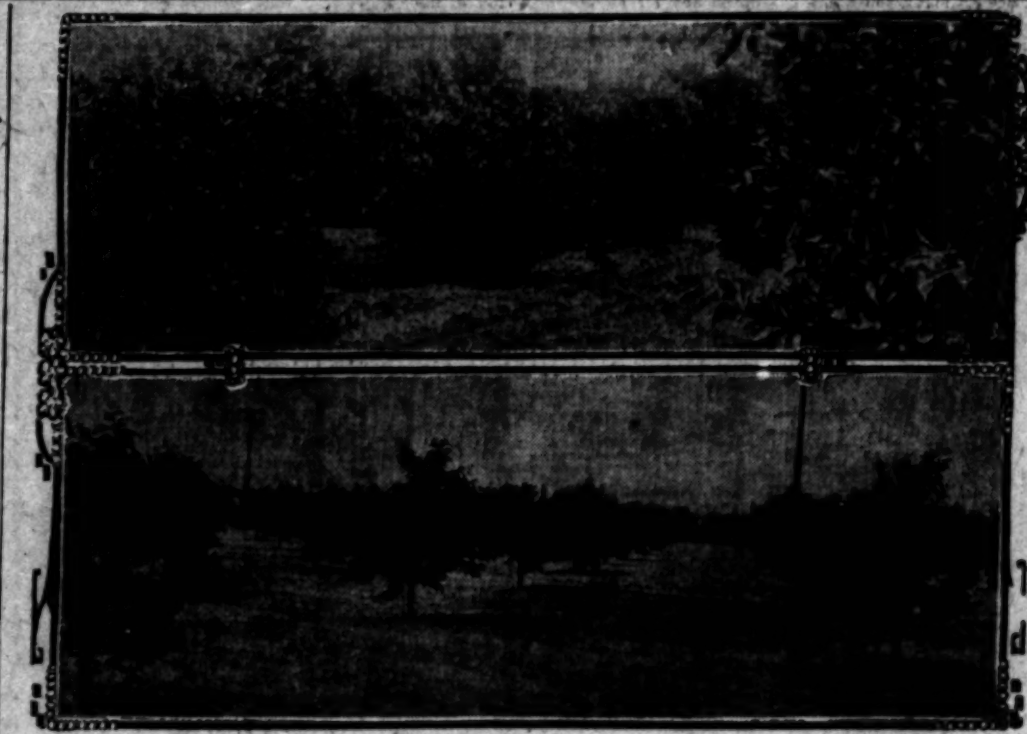

Mr. Hopkins said the assessed valuations had been placed excessively high by a Covina deputy during Assessor Caldwell's administration, and had never been reduced. He promised that Deputy Wheeler should personally inspect every ranch and equalize the values with other districts.

From Covina the party went to Azusa, where different conditions confronted them. While the Covina orchards grow under an assessed valuation of \$200 per acre for land with water rights, Azusa land, under similar conditions, is assessed, for example, \$100 per acre, and does as low as \$15 per acre.

For one thriving young orchard within the city limits of Azusa, having 112 acres on the west side of Citrus avenue, all in oranges. The trees on this 112 acres were assessed last year for \$600, and this year for \$700, or less than \$7 per acre. Just west of this orchard is another of twenty-three acres, owned by the same people, but the trees are not assessed at all.

At Glendora it was found that mountain land owned by the Western Water and Power Company was assessed at 10 cents per acre, while other mountain land was assessed to a poor man at \$5 per acre.

"These inequalities in assessed values are often due to the deputy assessor allowing matters to run in the same old way from year to year," said Hopkins. "They are due also to the fact that the

Two of the Lightly Assessed Orange Groves.

That above, at Azusa, with canyon water, is rated to James Blanton at fifteen dollars an acre, and the other, a hundred-and-twelve-acre orchard, to the Azusa Pothill Citrus Company at seven dollars an acre.

map books have not been checked for several years, on account of the shortage of funds.

"The policy is not to raise the valuation of the county as a whole, but simply to equalize the values, so as to make different portions of the county bear the same assessed valuations under similar conditions. Every improvement in Los Angeles city is being revalued and rechecked, so that old buildings, which have been on the books for twenty years, are being revalued and new buildings also revalued.

"I consider that values have not depreciated in any way during the past year, nor have they risen to any considerable extent except in favored localities, where the advance has been marked. Of course, there are some outside subdivisions which will also receive attention.

"I have left the work of equalizing the assessed values to Frank Wheeler of Claremont. He has been working from the east county line westward for the past year. He is thoroughly familiar with conditions, and I have great confidence in his judgment."

"Ramona Acres" is now only twenty miles away from the heart of Los Angeles on Mr. Huntington's new "Covina" line. It is not remarkable that any one will buy or build a home in Ramona when they can secure one of these "Ramona Acres." Every lot is supplied with purest artesian water, "faster than one's wish" what they are in the city and yet only twenty minutes away. Beautiful building restrictions. Cement sidewalks and curbs.

It has the best soil in the world, grows everything in the vegetable and fruit kingdom, and beyond question is the most beautiful portion of the San Gabriel Valley. Lots that you can buy today for five or six dollars, within a few years' time, be cheap at \$100.

Farmer really desiring to purchase property, providing they can find what they want, are invited to visit "Ramona Acres" with a view of purchasing it, upon examination, it is found satisfactory.

We furnish maps and tickets free, and send every countryman. No trouble to show "Ramona Acres" on the tract.

Deputy Assistant United States
Treasurer Declares Wall Street's
Power Gons and That Its Calamity
Howls Can't Affect General Prosperity—Enthusiastic Over City.

George C. Bantz, deputy Assistant United States Treasurer, S. W. Brown, law clerk in the Controller's office in Washington, and W. H. Gibson, assistant cashier of the United States Treasury, arrived in Los Angeles yesterday and registered at the Hollenbeck.

These gentlemen have been in San Francisco and assisted in straightening out some of the financial tangles, which resulted from the earthquake. They are now bound for Washington, but will spend several days in Los Angeles and vicinity.

Mr. Bantz was in charge of the Sp. treasury at San Francisco for a month last year. He says that chaos no longer reigns in that city, and that the financial interests are now on a stable basis. Apropos to the general monetary situation, Mr. Bantz said:

"There was a time when, if Wall street yelled, the entire country from the Atlantic to the Pacific shivered, but I am glad to say the warmth of prosperity has banished this shiver. Wall street has really passed as a national power for good or bad. It can cry 'wolf' and the country simply won-

ders what on earth ails it, or it can yell with gladness and no more attention is paid to it than when it proclaimed calamity.

"The recent slump in stocks is the best example of the passing of Wall street as a controller of the nation's welfare. Stocks have slumped awfully, but it is the big speculators who seem to be the ones caught. The small investors had withdrawn their cash. If present conditions had existed five or ten years ago, there would have been the prettiest panic imaginable, but the producers of the country have awakened from the dream that the value of anything is the price demanded for it, and know that as long as they produce something good to eat, or to wear, or to use, and the people want these articles, the country will be prosperous.

"I am astounded at the prosperity of the Pacific Coast. Los Angeles looks as though it was almost too prosperous to live. I have seen nothing but crowds of busy people upon the streets and every one I meet wants to take me into a corner and tell me what an excellent business he is doing. Even in San Francisco, which has been experiencing the most troublesome time of its existence, there seems to be plenty of money.

"The entire West looks upon Wall street now as a joke. It verily seems that the financiers of the East will never regain the control of the country that they once held, for the West no longer needs to look to the East for finances. A small portion of the East may believe that stringent times are coming, but the country as a whole laughs at the idea."

Mr. Bantz refused to discuss the act of Secretary Cortelyou in coming to the relief of Wall street, but said that "the street" clamored for a vast deal more than it received.

\$3.50 and \$4.00 Shoes

SOME men think \$3.50 or \$4.00 is enough to pay for a shoe. If that's your idea, this is your store. We have other shoes here at other prices than that; but if that's the price you want to pay, we're the people to pay it to.

You'll get here at \$3.50 or \$4 Selz Royal Blue shoe; we don't know of a better shoe or a better name for the price.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PROSPECT GOOD FOR DRY TRACT.

WATER SERVICE LIKELY FOR THAT TERRITORY.

North Pasadena Land and Water Company Has Only a Small Number of Votes Lacking for Necessary Change in Bylaws—Opposition Seems to Wane.

Office of the Times, No. 34 South Raymond ave.

PASADENA, Oct. 2.—Only eighty-seven votes are lacking of the necessary two-thirds to amend the by-laws of the North Pasadena Land and Water Company, so as to include the "dry tract" within the limits of the company.

The election was held at 8 o'clock in the afternoon at the company's headquarters, No. 1114 North Fair Oaks avenue. The officials of the association stated last night that they had enough votes and to spare to carry the proposition.

Even Thomas Stone, who has opposed the inclusion of the dry tract, is now reported as in the same class with W. J. Bryan and conceding in the verdict of the vote. It is said that Stone is now only followed by Samuel Morris, who owns thirty-three shares of the association stock, and who controls a few proxies. The stock of the company is 1800 shares, of which the corporation now controls within eighty-seven shares of a two-thirds majority, and it is expected that the vote will be open only during the regular meeting to pass upon the water of the "dry tract."

This territory contains about 55 acres. Property owners in this district have agreed to pay the association at the rate of \$15 per acre for water rights in the North Pasadena company, which will bring the company an immediate fund of more than \$800, which will be used for the construction of a high reservoir to increase the service.

It has been reported that there is vigorous opposition to the project, but the tally of stock votes last night shows that the majority is with the water. A large majority to be heard from among the late-comers and proxies.

Knott.

HE ALSO RESIGNS.

Stream of Withdrawals from the Ocean Park Board of City Trustees.

OCEAN PARK, Oct. 2.—When the Ocean Park City Trustees met in adjourned session this evening, the resignation of Trustee R. A. Phillips confronted the members of the board. This was a surprise, so quickly following the resignation of Dana Burke. But the resignation was accepted, and Harry Allen was chosen to fill the vacancy.

The resignation of Dana Burke, which had been tendered last night, was also accepted, and George C. Blumley was named to occupy the vacant chair.

There have been six resignations of trustees since the last municipal election, eighteen months ago. The late Dorsey Fulton served on the job a few hours after he had taken the oath of office. Walter Wheat took place and soon retired, to be followed by David Evans. And then Evans and Force Parker jumped the gun, just as the adjournment of the board was being held.

JONES FOR PRESIDENT.

George M. Jones was tonight elected president of the board.

LETTERS MANY IN HIS ROOM.

FORMER CARRIER ARRESTED AT LONG BEACH.

Makes Confession of Wrongdoing and Will Be Made to Answer Before United States Courts—Restaurant Man in Bloody Combat Roll Out Onto Street.

Office of the Times, No. 34 South Raymond ave.

LONG BEACH, Oct. 2.—The renovation of the Ocean Terrace, a rooming-house at the corner of Ocean and Locust today, led to the arrest of Mark E. Tant, a former letter carrier, but at present night engineer of the Pacific Electric substation at Bona Vista, on charge of robbing the mails. Tant has been a full confession, and is in the City Jail, having been arrested by Marshal Young and Officer Phillips.

Paper hangers refurbishing the walls of the rooming-house this morning tore away the canvas background hiding the letters in room 8, and came upon piles of letters addressed to hundreds of people in Long Beach, and many of them showing evidence of having been opened by steaming. They contained checks and cash receipts, some few being sought by gossip letters, all of them being sought by gossip letters, all of them being sought by gossip letters.

It was found that the room had formerly been occupied by Mark E. Tant, a letter carrier, and City Marshal Young and Officer Phillips started to arrest him. His home address was unknown, but after driving about the country all afternoon, Tant was found asleep at his father's home on Hillman street, and brought to the postoffice, where, after a rigorous examination, he broke down and acknowledged his guilt, but claimed that the most of the letters had been taken by his father, and that he had been forced to deliver them.

Tant was seen in the City Jail tonight by a Times reporter, and asked to make a statement, which follows: "I am a letter carrier, and I belong to the letter class. I had no criminal intent, but acted through fear. I was appointed as a letter carrier in December, 1906, and took a carrier route December 1st of that year. My route was from Third street north to Eighth street, and I delivered the mail daily. I was paid \$1.00 per day, and I was supposed to cover twice a day in eight hours, carrying from seventy to ninety pounds of mail each day. On Monday, I was working as usual, and when my working time was up I would find the mail bags still in the truck. Hoping to deliver them later, I went to deliver them later in the afternoon. I did not return them to the office, but took them to my room. Then, after a while, I saw the letters, and I became frightened at my act, and hid them away in the wall. The unopened envelopes were given me by the postmaster, and I kept them in my room. I was afraid to return them, and I was afraid to return them, and I was afraid to return them.

SAWTELLE.

SAWTELLE, Oct. 2.—Sawtelle is about to undertake her first important public improvements under the new municipal government. These are to consist of street work. PUBLICITY THAT PAYS.

Demonstrations in Advertising Cause Monrovia to Select Just One Medium.

MONROVIA, Oct. 2.—After a year's publicity campaign, Monrovia accepted without demur the modern business test, "Good advertising is the shortest and cheapest route from demand to supply—the straight line between the man who wants and the man who has." Incidentally it pays both.

As the result of the Board of Trade's initiative about \$2000 was spent in 1904-7 in cooperative advertising of the citrus. It paid and paid much more on the chance of robbing the mails. Tant has been a full confession, and is in the City Jail, having been arrested by Marshal Young and Officer Phillips.

The first campaign was inaugurated by a mass meeting and many speeches. The second started practically as a matter of course, but there is no distribution of funds. A six months' contract was entered into with the Times and the Times only.

Monrovia is not sentimental except in regard to its city. In financial matters they want their money's worth, whatever may be their political faith or creed, and the Times advertising paid in quite probable that the six months' contract will be extended from April 1 to July 1.

ORANGE REVENUE. Directors of the Orange-Monrovia Fruit Exchange issued the annual business statement of the association today. Shipments and dividends were far larger than in any preceding year.

Representatives of interests aggregating many hundreds of thousands of dollars and in opposition to the disincorporation election got together and discuss the prospect.

OCEAN PARK, Oct. 2.—There is something more substantial than mere talk in the scheme to consolidate Ocean Park (which includes Venice) with Santa Monica. At an impromptu conference of representative bench residents today, future, and almost all were represented. There were disincorporationists from Venice, "anti" from Ocean Park, non-participants in the late conflict, and Santa Monica.

Many hundreds of thousands of dollars of the taxable wealth of the two cities were represented, and almost without a dissenting voice the conclusion was arrived at that consolidation is the one and only thing. It is argued that by combining the cities there would be a greater Santa Monica of about 20,000 people, with a freer charter and representation on the City Council, by wards. This would give every section of the city its representative on the board, and some rule would be the order of the day.

It was deemed expedient to call a mass meeting of citizens for some date in the near future, and at this time the matter will be discussed in detail. The question is, how can the desired result be accomplished? It was stated that the law provides that Ocean Park will not be permitted under the present law to again vote on disincorporation within two years. It has been suggested that the Legislature be asked to pass a special enabling act, permitting the electors of the two cities to vote on the question of annexation.

LIPTON IS SORRY.

Would Like to Race for America's Cup Under Conditions That Would Be Satisfactory.

(BY THE ASSOCIATED PRESS-P.M.) DUBLIN, Oct. 2.—Sir Thomas Lipton has again expressed his deep regret at the refusal of the New York Yacht Club to accept his challenge to race for the America's cup, and in a lengthy letter to the Royal Irish Yacht Club, sets forth his reasons in detail. He considers that the handicap of having to design a vessel of sufficient light construction yet capable of being taken with safety on its own bottom across the Atlantic, entirely precludes the possibility of competing on equal terms with a vessel which is not compelled to make this ocean voyage. He concludes by saying: "I am always prepared, under mutually satisfactory conditions, to arrange a race."

Three Ages of Men in Stein-Bloch Clothes

The man of 17—the man of 30—the man of 50. All have different views. All are reflected in their clothes tastes—and in Stein-Bloch Clothes.

Tens of thousands of men working at professions and in offices—with limited incomes—have the same taste, the same necessity, the same genuine idea of clothes as the smartly groomed society man or college man of wealth.

To them these things are just as much business and social necessities. Stein-Bloch Clothes have won a place in the estimation of such men that nothing can disturb. They always look for the label—and find it at the leading clothier's.

GREAT CITY IS THE TALK.

SANTA MONICA-OCEAN PARK COALITION FAVORED. Representatives of interests aggregating many hundreds of thousands of dollars and in opposition to the disincorporation election got together and discuss the prospect.

OCEAN PARK, Oct. 2.—There is something more substantial than mere talk in the scheme to consolidate Ocean Park (which includes Venice) with Santa Monica. At an impromptu conference of representative bench residents today, future, and almost all were represented. There were disincorporationists from Venice, "anti" from Ocean Park, non-participants in the late conflict, and Santa Monica.

Many hundreds of thousands of dollars of the taxable wealth of the two cities were represented, and almost without a dissenting voice the conclusion was arrived at that consolidation is the one and only thing. It is argued that by combining the cities there would be a greater Santa Monica of about 20,000 people, with a freer charter and representation on the City Council, by wards. FALLS IN VAT OF BOILING WATER.

WIPER SERIOUSLY INJURED IN
SAN BERNARDINO.

Immersed in His Neck in the Boiling Liquid He is Removed While Suffering Intense Agony—Juvenile Court About to Be Established at the County Seat.

[BY DIRECT WIRE TO THE TIMES.]

SAN BERNARDINO, Oct. 2.—[Exclusive Dispatch.] Olsen Weatherly, an engine wiper at the Santa Fe roundhouse, was probably fatally scalded this morning by falling into a vat of boiling water while at work. His body below the shoulders was submerged.

The accident occurred at the company's hospital at Los Angeles, with little hope of recovery. San Bernardino is to have a juvenile court. This was decided this afternoon at a conference between Judge Osterlund and the Superior Court. They will appoint a committee of seven citizens to constitute a probation board, this committee appointing the probation officer and deputy. Judge Osterlund said the juvenile court is not expected before the first of the coming year.

Sylvanus Wixom, son of a prominent family, was seriously injured this afternoon at Base Line and E street by being kicked by a horse. His recovery is doubtful.

George L. Moore, a painter, has commenced suit against Dr. Shoup & Craig to recover damages in the sum of \$10,000, which he alleges he has sustained through the carelessness of the physician in treating him for a dislocated elbow. The plaintiff alleges that he dislocated his elbow last July, and was treated until the first of last month by the physician, who then informed him that he was fully recovered from the injury. He found that his elbow joint was still inflexible, and declared he is permanently disabled as a result, and seriously handicapped in his trade.

B. M. Lawrence, a mining man, who was killed by a Los Angeles mine official, on the desert several weeks ago, was released from the County Jail this morning on \$5000 bonds, furnished by Mrs. E. E. Stange, a sister, and Stephen Townsend, both of Long Beach. Senator Willis and Mrs. Clara Potts of San Francisco are his attorneys.

A marriage license was issued today for Will Reed Wyatt, a native of Kentucky, aged 34, and Liana Della Rine, a native of Massachusetts, aged 31, both residents of Los Angeles.

THIS FRUIT PAYS.

Studies at Riverside as to Cause of Decay
Going on While in Transit.

RIVERSIDE, Oct. 2.—Nearly half a million dollars was the sum paid to the growers by one packing association, the Riverside Heights No. 10, for oranges and lemons shipped through this association the past year. To be exact, the total amount was \$490,000. In the season the heights shipped 17,442 tons of fruit, amounting to 14,442 tons of oranges and 3,000 tons of lemons. Of this amount, about three-fourths consisted of navel oranges, the remainder being lemons and mixed varieties of oranges. These figures were submitted at the annual meeting of the stockholders and directors of the association held yesterday afternoon.

The directors elected are: W. P. Russell, J. E. Cutter, Dr. J. G. Baird, L. R. Giffin, Dr. W. W. Robles, J. A. Allen, J. L. West, Dr. J. W. Correll, L. C. Walte, H. D. French and George L. Winterbottom. The former officers were re-elected. The showing of business for the past year was extremely satisfactory, and the management received hearty congratulations.

Following the findings of G. Harold Powell, as to the cause of decay of citrus fruit in transit, the stockholders decided to have only the most careful methods used in the picking and packing of fruit this season. In future the practice of picking by the box will be discontinued.

ENDEAVORERS JOIN. Christian Endeavor societies of the various church denominations in the city have organized a city union. W. C. Moore of the First Christian Church was elected president; R. C. Brewer of the Seventh Day Baptist Church, first vice-president; Miss Jennie Kirkpatrick of Calvary Presbyterian Church, second vice-president; R. A. Mason of the First Congregational Church, secretary; A. E. Timmons of the United Brethren Church, treasurer; Miss Helen Braman of the First Congregational Church, chairman of the book-committee; Charles Foster of Calvary Presbyterian Church, chairman of the Social Committee, and W. P. Shephard of the Congregational Church, chairman of evangelistic work.

WOMAN'S CLUB EVENT.

Mrs. Jonas S. Wood of San Bernardino was the guest of honor at a luncheon given yesterday afternoon by Mrs. G. D. Cunningham at her home at No. 388 Ninth street. The table decorations were carnations, and the guests were a few of the active members of the Woman's Club, of which Mrs. Cunningham is the newly-elected president.

SAV BELLS ARE RIGHT.

Site in Ventura County Over Report of
Camino Real Marks Wrongly
Placed.

VENTURA, Oct. 2.—Mrs. M. E. Dudley of this county, who is largely responsible for the placing of the El Camino Real bells along the highway of the county, is perturbed over the statement that the wrong roads have been belled. The statement has been made that the roads by way of Santa Paula, Camulos and San Bernardino are the real old-time roads, the ones traveled by the padres in the mission days, and are the one which should have been designated by the El Camino Real bells, and not the roads which lead to the Conejo rancho. Mrs. Dudley has put in much research and days and months of patient work in going over the records and in interviewing people who knew, with the result that the bells were put where they now are by the supervisors and are on what are stated to be the right roads.

M. E. Isham has been awarded the contract for building the Rincon bridge at the boundary of this and Santa Barbara counties, and which is on the Camino Real road. The bridge is to be of steel and concrete. The Isham bid for the work was \$2500. The County Good Roads Commission has been organized by the election of

Thomas Clark as president, R. R. Edmundson, another member, as secretary, and Jo Wood as treasurer. The commissioners gave bonds for \$2000 each.

ODDFELLOWS ELECT.

State Encampment at Santa Barbara
Chooses Officers for Coming
Year.

SANTA BARBARA, Oct. 2.—The second session of the Grand Encampment of Odd Fellows this morning resulted in the election of the following officers: P. E. Pierce, Grand Patriarch; J. F. Chappell of Vallejo, Grand High Priest; H. P. G. Wolf of Sacramento, Grand Senior Warden; W. H. Barnes, re-elected Grand Scribe, and Charles E. Benedict, Grand Secretary. P. A. Week, M. P. Forber and Eugene Planders of San Francisco were re-elected Grand Trustees. Junior Warden, S. B. Force of San Leandro.

This afternoon the competitive drills by cantons were opened at Athletic Park for \$500 in cash prizes. There were 200 men in uniform at the grounds. The cantons participating were put through a sword manual, marching maneuvers and fancy evolutions. The judges were Admiral R. H. McCalla, U.S.N., retired; Col. Thomas Wilhelm, U.S.A., retired, and Col. Fred Smith, commanding the Santa Barbara division of the Naval Militia. The times were: Col. R. H. McCalla, 45 years; Col. Thomas Wilhelm, 45 years; Col. Fred Smith, 45 years.

The evening there was another band concert at the Putter Hotel. Later the Golden Rule degree was conferred at Elks' Hall by Star Encampment of Riverside. There was also a dance at the hotel ballroom.

The programme tomorrow will open with a brief session at 8 o'clock. At this the encampment will decide upon the next meeting place. In the afternoon the parade of the Odd Fellows will move, and at 2 o'clock it will move.

CHANNEL CITY BRIEFS.

Miss Catherine Robinson, the 11-year-old daughter of Mr. and Mrs. Matthew Robinson of West Figueroa street, died yesterday afternoon at the Quinsimo Hospital, from shock, following an operation for appendicitis.

Frank Castro, 45 years old, died yesterday at No. 219 West Canon Perdita street, from a complication of diseases.

ELSIENORE, OCT. 2.

The Lakeview Hotel reopened yesterday after being closed for a couple of months for improvements. Among the first to register there this season are: J. J. Colby, Long Beach; E. A. Colby, E. J. Anderson, Mr. and Mrs. O. P. Higgins, Redlands; Anita L. Ut, San Diego.

Among Sunday Hotel arrivals are: W. W. Thomas, C. C. Cole, J. J. Phillips, Mrs. E. A. Phillips, J. B. Cline, E. H. Edwards, B. D. Kornick, William P. Thier, all of Los Angeles; J. H. and M. Northrop, Santa Ana; Dr. and Mrs. Campbell, Billings, Rialto; Mrs. E. G. West, Norwalk.

J. E. Delaney and son of San Bernardino, C. H. Haverstick, C. H. Haverstick, R. T. Mower, Riverside, and C. L. Load of Pomona are among the recent arrivals at the Elsiensore Hotel.

O. E. Smith left yesterday for Los Angeles, Mr. Smith will remain in Elsiensore with her parents, Mr. and Mrs. S. L. Lauler, for some time.

OCEANSIDE.

OCEANSIDE, Oct. 2.—Six large cloth buildings for the propagation of plants are being erected at Oceanside by a company which will begin on an extensive scale the culture of flowers, small fruits and plants for table use. The capacity of these buildings will be equal to the propagation of 100,000 young plants and there are now in the field about 600,000 plants. Two acres are devoted to the production of chilies, bell peppers and eggplants, for winter use. Manager Langford says that the company has fourteen acres devoted to the culture of carnations, and that the present intention is to purchase ten acres more. The soil here is well adapted to carnation raising. Next month the company will ship between 10,000 and 15,000 carnations per day. Fifty acres are planted to carnations and garden products, consisting of tomatoes, strawberries and dewberries.

Motorman Adams was probably fatally injured and injured and twenty passengers were more or less seriously hurt in a collision of two north-bound Steubenville, O., and Toronto traction cars during a fog at Steubenville yesterday.

TRY THIS FOR YOUR KIDNEYS

MIX DANDELION, SARSAPARILLA
AND KARGON AND TAKE
AS TOLD.

A Home-Made Mixture Which Anyone Can Prepare—Relieves All Forms of Blood Disorders By Restoring Proper Action of the Kidneys and is Said to Cure Rheumatism of Many Years Standing.

It may be that some persons will be inclined to doubt the statement made by an eminent authority, at a recent meeting, that with a mixture of dandelion, kargon and sarsaparilla, he would give prompt relief to any sufferer of rheumatism or the usual forms of backache, caused by inactive, clogged kidneys, yet many cases of long standing that had been entirely relieved were cited to prove the truth of his assertion. The same authority further stated that many cases which failed to yield to the healing waters of the famous health resorts, or the usual remedies as prescribed, salicylate of soda, potash, colchicum, etc., were readily relieved by the use of this simple mixture—Faded Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful dose after meals and at bedtime.

A well-known druggist, when approached upon the subject, stated that while this prescription, as written, is new, the ingredients are continually prescribed by the best physicians, and any good prescription pharmacy has them; they are inexpensive and harmless in use, and are mixed by "balancing" with a bottle.

If the claims, made for this mixture, are only partly correct, it would seem that no sufferer here could afford to leave the prescription untried.

MEN ONLY

I Cure the Cases That Others Cannot Cure

A bold statement but just as true as it is bold. Not all cases that others fail to cure are curable by my method, but fully ninety per cent of them are. The way to learn whether your case is curable is to consult me. I know exactly what can be done in every instance. I ought to know that for I have done nothing else other than cure men's diseases for twenty-five years. If your case is curable I will treat you. If it isn't I will not. If I treat you, and if you are cured,

Weakness
Weakness in men is comparatively a simple ailment and is but a symptom of blood disorder, a congestion of an important nerve center. No stimulating treatment, whether internal or locally applied, can do more than cause temporary activity. My special blood treatment restores normal conditions throughout the organs involved, which promptly results in complete and permanent restoration of strength and vision. This treatment is original with me, and it is the only radical and certain cure yet devised.

Varicocele
Varicocele is a retarding, limiting and twisting of the most vital blood vessels of the organic system. It stagnates the blood circulation and interferes with the process of repair and renewal. It is a source of constant trouble. Most physicians resort to surgical operations and hospital treatment. My cure is in one week without operation, paid no doctor's fees. My cure is absolutely permanent, and it effects what others cannot follow my treatment.

Dr. Taylor
I will wait for you. My fee is \$10.00. You are well. DR. TAYLOR, The Leading Specialist. I ALSO CURE ALL SPECIAL DISEASES OF MEN SUCH AS HYDROCELE, PROSTATE, VARIICOCELE, BLOOD DISEASES, ETC.

EXAMINATION FREE
I offer not only free consultation and advice, but to every case that comes to me I will make a careful examination and diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble. If you cannot call, write for diagnosis chart. My office is open all day from 8 a.m. to 5 p.m., and Sundays from 10 to 1.

Come to Stay

A great many men are suffering and doing themselves harm with drugs without getting relief. They never try a remedy like mine, because they repeat false conclusions in their minds. Electricity is a remedy of the future, but it is here today. It is a remedy of the future, but it is here today. It is a remedy of the future, but it is here today.

HAND DOCTORING.

DELVING INTO
"MALLET CURE."State Medical Board Starts
Chiropractic Quiz.Widow Illustrates the Mode
of Treating Premus.Operation Doesn't Hurt a Bit,
Says Dr. Storey.

Attorney Grant R. Bennett, representing the State Board of Medical Examiners, yesterday began an investigation of the case of Dominick Premus, the San Bernardino farmer who, just prior to his death, was treated by Dr. Thomas H. Storey, a chiropractor.

Records of the State board show that Dr. Storey holds no license, that chiropractic is not recognized by the board, and that Storey has been in court twice on charges of violating the license law.

At the inquest yesterday at the Pierce morgue, a coroner's jury returned a verdict of death resulting from hemorrhage of the lungs.

Dr. George Campbell, autopsy surgeon, said that, although Premus had suffered from pulmonary trouble, there was no doubt in his mind that the treatment the patient underwent was too severe for a weak man.

On the witness stand yesterday, Mrs. Premus told the story of the treatment given her husband, just as she had told it to a Times reporter on Tuesday.

TELLS OF "MALLET CURE."

She told the representatives of the coroner's office that her husband had been pounded on the back with a mallet, that a wooden chisel or spike had been placed between his vertebrae and thumped with a wooden mallet while Premus groaned with pain.

When she endeavored to describe the manner in which Dr. Storey had applied the "spring" treatment, her manner was not clear to the coroner and Dr. Campbell came forward to act as an interpreter.

TREATMENT ILLUSTRATED.

The autopsy surgeon was placed across two chairs, his head resting on one, his knees on the other. Mrs. Premus then put her hands on the physician's back and showed how Dr. Storey had applied the "spring" treatment. She then rested her weight on the small of Dr. Campbell's back and lifted herself clear of the ground, following that by placing her knees on the spine and pressing hard. The operation was completed by a twist of the physician's neck that caused him to wince.

Dr. Storey was not subpoenaed but his attorney was present. "According to the testimony given by Mrs. Premus, she attended five treatments given her husband by Dr. Storey," said Deputy Dist. Atty. Parsons. "That is not unusual evidence to warrant the filing of a complaint charging this man Storey with practicing medicine without a license. The State Board of Medical Examiners does not recognize his system of practice and he has no license. Attorney Bennett, as representative of the State board, under whose orders these medical prosecutions are conducted, has taken up the investigation of the case. His records show that Storey has been up twice before, the last time being subjected to a fine of \$500."

"In view of the evidence at hand, a complaint will be issued to Attorney Bennett as soon as he sees fit to apply for it, and then Mrs. Premus will be subpoenaed to appear as a witness."

"DOESN'T HURT A BIT."

"Just allow me to give a practical demonstration of my simple apparatus," said Dr. Storey, when asked yesterday to explain the cause of the sudden death of his patient, Premus. "I will show that a treatment could not be injurious. In the French case, the mallet with which I drive back adhering vertebrae does not weigh more than half a pound. It really doesn't hurt to any great extent, but a drill covered with rubber. That is laid against the vertebrae that are pushed up and a blow with the mallet sends the offending ones back into place. In the French case, the vertebrae were apparently immovable. I worked on him for some time, but, unfortunately, was unable to dislodge the vertebrae."

"I never have hurt patients from the ceiling by means of a cord. I have a pretty and somewhat expensive apparatus for stretching a person, to add to the height."

"I have treated all kinds of cases since taking up the chiropractic system. I have cured many cases of medicine at various colleges and use the drugless system of treatment because I believe it is better than the old-fashioned methods. Why is it any worse to tap a man's spine lightly with a drill and mallet than it is to use the knife?"

"When Premus came to me he was suffering from an abscess in the side, his kidneys were affected and his lungs were weak. I gave him treatment to save him, if possible, but the poor fellow was too far gone. I was not the last doctor who attended him. A Japanese physician was summoned to his house shortly before he died. He administered an injection close to the heart. I do not fear prosecution or persecution. Jealousy of other doctors has caused me much annoyance, it is true."

"An Island of Women. A visitor to Ouessant, off the Brittany Coast, will see few, if any, Ouessantians. All that he will see are the women—women of Ouessant, harvesting. The men are at sea. The women do all the work of the land, and one may see them in their quaint, short black petticoats, their tight bodices, their black kerchiefs on their heads, binding and carrying home and bending in strenuous labor over the flail. The men of Ouessant do no farm work. They belong to the sea; the sea is a jealous mistress. At fifteen the lad goes off as sailor. Then they serve in the navy. When the navy sets them free they usually re-enlist so as to earn a pension when they are too old to work. Others are in the merchant service, and all, navy men or merchant men, are married. A few are fishermen, but they are at sea nearly always, and you will rarely meet them about in the island."

"Marvels of the Human Body. An average man's body there are 25,000,000,000,000 cells. Picking one every second would take him twelve eights of a week. blood there are 25,000,000,000,000 cells. Laid out side by side they would cover a surface of 1,130 square miles."

"A man who has arrived in New York since last night. She returned early, she reached earlier than she had expected, and she had been signing with the being the Opera Company. She arrived at the hotel at 11:30 p.m. and immediately for San Francisco."

JAM TERRIFIES SQUAW.

(Continued From First Page.)

It would be impossible for anyone to force a passage through that dreadful stampede of people. We decided to go back and try another road. To our wonderment, it was worse than the other. We could not imagine where so many people came from and where they were going. We felt sure that we would suffer some great harm if we tried to go down that road.

ALL ROADS EQUALLY BAD.

"After trying a long time, however, we found that all the roads were the same, one being the same as the other. We had to risk it."

"I had a paper that our chief gave me, addressed to a lawyer. I hunted around the streets and asked a great many people, but none of them was a lawyer. At last I asked a policeman, and he showed me into a perfectly enormous house, in which there were more rooms than I could count. (An office building.) At last a man told me to go into the door the whole room flew suddenly upward. We were much frightened."

"At last we found the lawyer, and he helped me to find my husband."

Joaquina went to the County Jail on Tuesday with all her children. They were permitted to see Juan in the jail office, and the whole family went over him.

When night came, she had to take her children back to their camp. She was penniless, and there was nothing to eat. The officers at the jail collected a little purse and told Joaquina how to find the way to the court.

Yesterday she was on hand with her children. Her husband, Juan, was promptly acquitted by the court, and they had a great reunion in the jail. Three or four Indians were set free, but also, the husband of Joaquina's friend was not. He is to be tried today, and the whole family will wait to see her through her trouble.

While Joaquina sat around having a feast of rejoicing with her husband and the children, the mother of the

fall came down to beg the Sheriff that an Indian woman prisoner might be allowed to come down and see her friends.

SOLENN REUNION.

The request was granted by the United States Marshal, and another reunion took place. The woman's name is Ignacia Ringlor. She says some man treated her to fire water, hence her arrest. When she came down from the women's ward, she proceeded solemnly to shake hands with every one in the room and then sat down and they all stared at one another in dead silence.

Although several of the Indians are free, they are in a bad way, Juan said, and Joaquina, for instance, not having any way to get home or any money except to repeat the long wagon trip, for which they lack sufficient supplies.

Nine of the Indian braves were placed on trial before United States Commissioner Jan Dyke, charged with resisting an officer during the fiesta at the reservation on September 15. The government concluded its testimony at adjournment. Today the defense will have its turn.

It is believed the attorney for the Indians will endeavor to show that Constable Jack Meeks was hustled into the Soboba reservation jail because he struck one of the dusky braves. The evidence so far shows that a general riot was averted through the coolness of L. A. Wright, the Indian agent, supported by his few trusty Indian policemen.

The Spanish Minister at Tangier has requested an interview of Sultan Abdul Aziz and has gone to Rabat on board a man-of-war.
